PROJECT INFORMATION

PROJECT STATUS & SYSTEM NOTES

2/16/18 Currently in RAA status. This system fluctuates with Arsenic due to location of system (bottom of canyon, gravel pack). Seems to be higher after a rain. System is on quarterly monitoring indefinitely.

11/1/2018 - The consultant is preparing the test well design and specifications for the first test well site. One test well is planned to be drilled at the current well 2 site. Reese has recommended that they begin zone sampling of the test well at 50 feet to evaluate the necessity of iron and manganese treatment. **7/20/2018** - No Change **5/30/2018** - Currently in the middle of the planning study. The district is working with an engineer to find a good location for a test well. **10/27/2017** - No Change. **8/15/2017** - Funding decision is still in process. **6/19/2017** - DFA has received all required material and a funding decision is in process. **5/9/2017** - DFA is still processing the planning application. According to DFA the FA should be executed possibly by August 1, 2017. **1/17/2017** - The construction funding application is currently under review by the DFA. It is predicted that a FA may be executed as soon as April or May 2017 barring any unforeseen issues. **11/3/2016** - Meeting between SRWCB and the water system to discuss a revised scope of work for the planning project. More emphasis will be put on drilling 3 shallow test wells. **8/16/2016** - CRWA submitted a completed feasibility study FFAST application for treatment or a new well on 8/15/2016. **4/8/2016** - Funding

	New Well/Source
--	-----------------

11/6/2018 The water system has completed the installation of an arsenic removal system and a disinfection system. The arsenic filtration system is operational and a temporary permit to operate the water system has been issued. Raw water arsenic levels from Well 3 were tested on 10/7/2018 and found to be 11 ug/L. Treated water arsenic levels for water from Well 3 were found to be 3 ug/L during testing conducted on 10/2/2018. The water system is currently developing an updated schedule for replacing arsenic filtration media and will continue to monitor arsenic levels in the drinking water supply. **8/15/2018** Gold Beach Park is currently under a "Do Not Drink" notice for their water supply. They have received approval to move forward with a proposed system for arsenic filtration as well as chlorination of the drinking water supply. An arsenic filtration system has been installed, but has only reduced the arsenic levels to 10PPM. The water treatment operator is obtaining an approved filtration media specific for arsenic removal from drinking water. A site visit was conducted on August 7, 2018 with Richard Nurse (water treatment operator), Austin Peterson from the State Water Resources Control Board, and Christina Carroll with the EPA. Richard Nurse is calibrating the water system this week and will contact me for a follow-up inspection of the system in coming weeks. **5/9/2018** Gold Beach Park continues to use Well #2 as their potable water source. A DWSP Amendment has been submitted, reviewed, and returned to Gold Beach Park with comments. El Dorado LPA is waiting for a response to the comments from Gold Beach Park. **2/12/2018** Gold Beach Park continues to use Well #2 as their potable water source. Water from this well continues to test below the MCL for Arsenic, but bacteriological contamination problems and high manganese and iron levels in water produced by this well persist. Citations have been given to the water system with many directives including directives to evaluate the well casing, disinfect the well, and to address the high manganese/iron levels in the well. A notice to comply has been issued to Gold Beach Park by California State Housing and Community Development. **11/28/2017** Gold Beach Park is completing water quality testing for an alternative well at the park. The alternative well is being used to provide potable water to park residents. The alternate well has high manganese levels and has also tested positive for coliform bacteria. A filter has been installed for manganese, but repeat testing for water that has been filtered has not been completed yet to confirm that manganese levels are below the MCL. This system has not yet returned to compliance, but the current water source for the park - Well #2 - has arsenic levels that are below the MCL. **6/23/2017**: EPA issues a NOV to Gold Beach and an inspection is scheduled for 6/29/2017. **6/14/2017**: DDW refers this case to EPA for enforcement. **5/4/2017**: No changes reported to address elevated arsenic levels. EPA Enforcement Division assistance requested

----------	-----------------------------------

11/6/2018 Miller's Hill School continues to supply drinking water through their new water system. The most recent water sample taken on 9/19/2018 had an arsenic level of 5.9 ug/L. Arsenic levels will continue to be tested on a monthly basis. 8/15/2018 Miller's Hill School is supplying drinking water through their new water system. At this time, they are not blending water between two wells and are only using water from a single well. Arsenic levels are being monitored monthly and samples tested have been below the Arsenic MCL. 5/9/2018 Miller's Hill School is supplying well water from their newly installed and completed water storage/treatment system in accordance with their approved operations plan. Arsenic levels are being monitored monthly and all samples tested have been below the Arsenic MCL for the past 3 months. 2/12/2018 The school has completed the installation of a new water system outfitted with a water chlorination system. Water for the school is being supplied by a single well that produces water that is below the MCL for arsenic. The school is testing arsenic levels monthly and does not have to use their approved blending plan at this time. A new domestic water supply permit is being written for the school based on the components of their operations plan that have been approved. EDC will continue to monitor their monthly arsenic testing results. 11/28/2017 The school has submitted an operations manual for review that details system components, routine operational procedures, historical testing data, and contingency plans for blending water between existing well sources. Some elements of the plan need to be revised before approval, including updating the well water blending plans to include only plans recommended by Hydrosience. Once the operational plan is approved, the system will be considered to have returned to compliance. 6/27/2017 The school is developing a plan to use a combination of wells to meet the arsenic MCL. Miller's Hill School will be submitting a written plan for blending water from different wells to lower arsenic levels as well as alternative plans in case a well fails to produce enough water or produces water that will elevate arsenic levels in the distribution system above the arsenic MCL. The plan should be ready within the next 1 or 2 months. 5/4/2017 The school is in the process of incorporating their newly drilled well into the water system. It has arsenic levels below the MCL but has nitrate levels above the MCL. Time series testing to further characterize nitrate levels has been completed on this well and an engineered plan is being developed to blend the water from this well with water from the other existing wells. The school is still providing bottled drinking water to students and staff. 4/19/2017: Per the LPA, the school is continuing to provide bottled water (Rim Rock Water Co.) for students and staff. They are in the process of bringing their new water system equipment online but are having difficulties with coliform positive water samples and are working to determine the source. They

11/13/2018 Same as previous. 8/10/2018: Construcion of the wells is anticipated to be completed by the end of 2018. **5/21/2018: All customer have been connected to the new distribution system. A contract has been awarded for the above ground work on the two new wells.** 2/12/2018: Distribution mains have been installed and installaion of the service laterals is ongoing. The bid opening for the contract to equip the two new wells is scheduled for February 16, 2018. 11/27/2017: Two new wells have been drilled that produce compliant water and the distribution system piping is being replaced as well. Once this construction is completed the system will be in compliance. DE does not see the need to amend the compliance order since there has been a lot of progress made. 11/6/17: The well construction project is proceeding. The electrical engineer for this project is working on integrating a SCADA system for control of the well operations. The SCADA system design work needs to be completed prior to proceeding with completion of the above ground well construction work. **8/7/17:** A partial water quality analysis dated July 25, 2017 was submitted by the engineering consultant from the thrid well that was drilled. Arsenic was not detected. 6/15/17: Two wells were initially drilled and DDW rejected one of the two wells for failure to meet design specifications and drinking water standards (turbidity). PW3 showed no detectable arsenic in initial screening. The Receiver and driller have not reached agreement to close out the drilling contract. The receiver is proceeding with the second lowest bidder for construction of a third well to replace the rejected well. DDW expects that the completed project will have produced two new wells that meet applicable drinking water standards. At this point, the Receiver and DFA have not proceeded towards obtaining additional funding resources. In the event that the forthcoming well is not accepted, the water system could blend water with the accepted well (once equipped and connected to the system) with either the third well or an existing well. 4/27/17 – Receiver continues to work towards a settlement with well driller regarding unacceptable production well and awaits DFA approval for a Funding Agreement amendment to fund a second production well. **2/6/17 update:** DDW has accepted only one of two wells (Well PW3 accepted, Well PW4 rejected due to turbidity

11/13/2018 Same as previous. **Working on permitting system.** 8/15/2017: POU pilot study revealed that unit was effective removing arsenic. Syetem will be given approval to install additional units. 5/21/18: Same as previous. 2/12/18: Water System has submitted permit application and POU pilot study results. DDW will review the submittal for completeness. 12/12/2017: Johann Dairy's Well No. 2 was last sampled for arsenic on 8/15/17 with a result of 30.4 ug/L. I have attached a copy of our last correspondence regarding the proposed POU treatment. We have not heard from the water system. Although, now that Cristina Knudsen (Johann Dairy is assigned to Cristina) has joined our team we will be following the water system's progress closely. We will follow up with the water system owner and/or their consultant to request a response to the items documented in the June 2017 letter. 11/27/2017: Water system has not replied to our letter dated June 7, 2017. We will need to meet with them to discuss next steps. 8/7/17 - Letter dated

11/13/2018 Same as previous. 8/13/18: Same as previous. 5/21/18: Same as previous. 2/12/2018: No specific response, DFA is projected to issue the funding agreement to FCSA 30/32 in April 2018. 11/6/17: No update at this time. A funding agreement has not been issued for the FCSA 30/32. 8/7/17: No specific update, DDW will proceed to issue revised compliance order after Division of Financial Assistance concludes that a funding agreement will be issued to Fresno County for FCSA 30/32 projects. 6/20/17: DDW will consider issuance of a revised compliance order. 4/27/17 - No status change from previous update. 2/6/17 update: CCV submitted letter in support of consolidation with FCSA 32. FCSA 32 has begun developing a consolidation agreement under the DWSRF Planning Study. 11/7/16 No change in status. 8/16/16 update: Funding agreement issued to FCSA 30/32 on 8/9/16 for planning to evaluate groundwater for FCSA 32/Cantua Creek. CCV still proposes to consolidate with FCSA 32 as part of the construction project. 6/14/2016: Proposed solution is now evaluating groundwater for the Cantua Creek community. New funding agreement to change the scope of the planning study is under development, and should be issued in the next month or two. That project

What above ground work is needed on the new wells? Once that work is completed (assuming that the new wells continue to meet the MCL), what else must be done before the system returns to compliance?

When is it anticipated that the system will have an approved POU permit?

It appears that the consolidation project received Prop 1 funding in August 2018 and the entire funded project (more than just the consolidation) has an estimated completion date of Feb 2020. EPA recommends that a revised order be issued to the system to reflect dates in the funding agreement.

11/13/2018 Same as previous. 8/15/2018. Plans and specifications for the arsenic treatment plant have been approved. 5/21/18: DDW recently received plans and specifications for the arsenic treatment plant. DDW will review and provide comments. 2/12/18: No Specific Update. 11/6/17 - No specific update. A funding agreement has not been issued for this project. 8/7/17 - DFA is waiting for additional documents for environmental clearance before SRF funding agreement can be issued. 6/15/17 - No specific update; DFA update needed on arsenic treatment funding. Water system has executed additional funding contract with DFA for a feasibility study to address EDB violation in Well 3 and 1,2,3-TCP contamination in Wells 3 and 5. The water system is planning for that selected construction project to include expanding the proposed arsenic treatment in the case that a new production well also exceeds the arsenic MCL 4/27/17 - Bids for construction of arsenic treatment exceeded the remaining project budget. Water System is working direct with DFA to continue project either through a readvertisement of the bid or co-funding the project with SFR (which would require amending the environmental documents). 2/6/17 update: Phase 3 is out to bid, to be awarded in February 2017. 12/12/2016- Project is on schedule. Water treatment phase is being advertised. 11/7/16 update: No change in status - project continuing per schedule 8/16/16 update: Funding agreement amended 4/25/2016 to extend deadline for project completion to 3/21/18. Arsenic treatment soon to go to bid; 6/14/2016: the RTC date of

8/14/18 - currently writing permit for use of POU devices for arsenic and manganese treatment. System continues to collect quarterly raw and monthly POU post treatment samples. 2Q2018 POU samples exceeded 10 MCL and investigation is in progress. 8/2/17 - System continues to collect monthly POU samples all ND, submits quarterly progress reports and monthly POU report. 5/23/17 - system submits monthly reports, quarterly updates, and only one more POU device needs to be installed to give them 100% compliance for active service connections. 12/3/17 - system continues to submit quarterly updates per their citation. They only need 2 more POU devices installed to achieve 100% compliance with active service connections. 7/22/16- Keeler now has a D1 certified operator and is looking for a T1 operator to hire. They are maintaining their POU units and sending the LPA monthly reports. They now have 40 POU devices installed out of 43 active service connections. POU results are still ND. 4/22/16-New Board Members are addressing compliance order timeline. 2/5/2016-Approximately 40-50 POUs installed out of 80 service connections (service connection capacity max. not all lots are occupied). 3-5 samples are collected per month, so every unit is sample 1/yr.; results are ND and no spikes have been detected due the county requiring the filters to be changed out annually; problem is that the board quit in December 2015 and so currently there is not certified operator. Funding agreement needs a signature to be executed and the Board; quarterly source sampling is still being conducted; PN is being done quarterly. 11/20/2015-The 300k funding agreement was for centralized treatment alternatives with costs research, and drilling a test well to see if they can get a well with less arsenic. The KCSD Board failed to sign the

8/14/18 - 1st quarter 2018 sample is missing, RAA after 2nd quarter 2018 is at 10 using 3 quarters of data. A citation for arsenic MCL exceedance is currently being written and should be mailed out by next week. 8/2/17 - system recently is in violation of arsenic MCL beginning 1Q2017 period. RAA is at 11 for first and second quarter of 2017. System is in

11/18- no new CO was issued, but system submitted an RTC extension request with a schedule for POU installation/program. DO still evaluating that proposed schedule. 8/18-no update - current CAP indicates system contacted SelfHelp to look into POU. However, system is not a DAC and funding will be limited to loan unless a new MHI is determined in an income survey they fund themselves. Talked to the financial contact on 8/15/18 to indicated the system will be issued a citation for noncompliance with the CO issued in 2016. Will need to receive extension and explanation why the project has not moved forward. 2/18-no update from the water system on funding. Need to have an office hearing. 12/5/2017: The water system decided to pursue centralized treatment rather than POU's. Initially, the water system applied for grant funding, but was not eligible to receive grant. They were able to receive a loan, but they did not want to go that direction. Cristina mentioned they have been difficult in submitting everything that is required to move the project forward and does not expect them to meet the RTC date. 5/17- Evaluating use of POU supplied by Purifying Systems, and collected arsenic samples for chemical speciation.

11/18-Court date for 1,2,3-TCP is soon - no changes on arsenic or 1,2,3-TCP. 8/18-New CO for arsenic. Already have a CO for nitrate and 1,2,3-TCP was just issued. System in litigation for 1,2,3-TCP. Need to get CAP for the arsenic. Plan to

Did Inyo LPA determine why the POU samples were above the MCL in 2Q2018? What are 3Q2018 results for post-POU samples?	
Was a citation issued as planned last quarter? (If so, please enter information in the "enforcement" columns to the left.	
No current comment.

11/06/18 (JSD): Draft PER has been received and is currently under review by the State Water Board. A new CO is pending. 08/20/18 (JSD): Draft PER dated June 28, 2018, is being updated to address the July 3, 2018, comments from Selfhelp Enterprises. A new CO is pending. 05/14/18 (JSD): Draft preliminary engineering report is almost ready. The RTC date per the current CO is 4/30/18 and will be extended by issuance of a new CO. 03/06/18 (JSD): Selfhelp Enterprises continues to work on the TA project and is currently working with the consulting engineer on a preliminary engineering report to evaluate different alternatives. THE RTC per CO is 4/30/2018, and will need to be extended. 11/09/17 (JSD): The RTC date per CO is 4/30/2018. Based on the progress made so far, it is unlikely that this system will achieve compliance by the deadline in the CO. 08/07/17 (JSD): Self Help Enterprises continues to work on the Prop 1 technical assistance project to get the planning project off the ground. Compliance deadline per Dec. 2015 compliance order is May 29, 2018. 07/05/17 (JSD): The compliance deadline in the Dec. 2015 compliance order is May 29, 2018. The District office will consult with the Regional Engineer about the need to issue a revised compliance order, depending upon the progress made in the planning project. 05/05/17 (JSD): Prop 1 TA project is at the very beginning stage; not much progress made from last time. 02/06/17 (JSD): Under Prop 1 technical contract, Self Help Enterprises is working with the water system to complete a funding application for the planning project. 11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the consolidation pipeline and issues related to getting easement for the pipeline, consolidation of Lands of Promise is no longer part of the RCSD regional consolidation project. LOP is going to complete a separate planning application via FFAST which will include evaluation of other alternatives in addition to consolidation with RCSD. 08/03/16 (JSD): During phase 1 of the RCSD's regional consolidation project (expected to start in 2017), other alternatives (new well, treatment, etc.) including consolidation will be evaluated to select an alternative for construction. RCSD has expressed concerns over the O & M cost of the long consolidation pipeline to Lands of Promise. 6/10/2016 (NJG) - SWB OCC will be consulting with Kern County's legal counsel about funding agreement

	New Well/Source
--	-----------------

11/06/18 (JSD): Decision on Hungry Gulch's appeal is still pending. Corrective action plan, in response to the CO, has not been received yet. 08/20/18 (JSD): In response to BLM's letter dated 8/14/18, Hungry Gulch MWC submitted a response dated 08/17/18 to BLM. Final decision on the appeal is pending. DDW issued a new CO #03_19_18R_007 to Hungry Gulch on 08/07/18, with a new compliance deadline of 08/30/2021. Corrective Action Plan is due on 10/30/2018 from Hungry Gulch. 05/14/18 (JSD): No significant progress from last quarter. DDW provided information to the water system about POU/POE option. Next conf. call is scheduled on May 30 to further discuss the project and outcome of the appeal to BLM about termination of right of way grant for the test well. 03/06/2018 (JSD): By a letter dated 12/06/17, BLM terminated right of way grant for the test well project. By a letter dated 01/04/18, Hungry Gulch Water Company filed an appeal to BLM about the termination letter and requested to resume the test well project. Other alternatives, such as POU/POE treatment option is being evaluated. A conf. call has been setup for March 28, 2018 to discuss BLM appeal and POU/POE. The RTC date per CO is 4/30/18, which will need to be extended. 11/28/2017: If the issues related to the test well access are not resolved then POU will be considered as an interim measure. 100% compliance with POU may be difficult because some homes are second homes. 11/09/17 (JSD): A conf. call was held on October 11, 2017, to discuss ongoing issue about legal access to the test well drilled on the BLM Land. Selfhelp will make a last effort to setup a meeting between Hungry Gulch MWC and Lake Isabella Highlands Association to resolve the issues and to help complete the remaining items under the P84 planning project. If the legal access issue is not resolved, then focus will be on other solutions, such as point of use treatment. 08/07/17 (JSD): With the help of Dee Japspar & Associates, survey has been completed to help resolve the legal issues about easements to help complete the planning project. As of July 1, 2017, Boulder Canyon Water System is part of Hungry Gulch MWC (1500436). Boulder Canyon was already being managed by Hungry Gulch MWC. An intertie between Hungry Gulch MWC and Boulder Canyon exists to allow serving Boulder Canyon. With consolidation of Boulder Canyon with Hungry Gulch MWC, the system has three wells. A test well was drilled on BLM Land about a mile away and initial tests look promising; there are some legal easement issues to work out to be able to further develop the well and complete the remaining items of the funding project. 05/05/17: Under Prop 1 technical contract, Self Help Enterprises is going to work with Hungry Gulch to help resolve the legal issues about easement and help complete the planning project; Prop 84 planning funding agreement is being closed. 02/06/17 (JSD): Due to issues with legal easement to approach the wellsite, the project is currently on hold. Meetings between BLM, DDW, and DFA have been scheduled to help resolve

Consolidation

11/06/18 (JSD): No significant update from last quarter. DFA to provide update on the status of negotiations with NEWD. EPA should consider issuing an administrative order to NEWD, Fountain Trailer Park and Sunset Apartments for the arsenic MCL violation. 08/20/18 (JSD): No significant update from last quarter. DAF to provide update on the status of negotiation with NEWD to restart the construction project for consolidation and arsenic treatment. 05/14/18 (JSD): No progress on achieving compliance. DFA to provide update on the consolidaton project with NEWD. RTC per CO is 8/31/2018. 03/06/2018 (JSD): DFA to provide status on restarting the construction funding project for consolidation with NEWD. RTC per last CO is 08/31/2018; considering the current status of the funding project, it is uncertain if complaince can be achieved by this date. 11/27/2017: POU or interim measures will not be considered because the construction funding project for consolidation with North Edwards Water District could be restarted again; check with DFA on the status of the funding project. 11/09/17 (JSD): No further progress has been made on the construction project. DDW is not aware of any new construction work following issuance of the amendment to the funding agreement. 08/07/17 (JSD): An amendment to the P84 construction funding agreement has been issued to North Edwards Water District to start the construction project again, and the completion date is 12/01/17 according to the amendment which may not provide enough time to complete the project. Efforts underway to extend the deadline. Issuance of a new CO to NEWD is currently on hold per DDW's management decision. 07/05/17 (JSD): Issuance of a new CO to NEWD is currently on hold per DDW's management decision due to hex chrome court order. The plan was to issue one CO to NEWD for both arsenic and hex chrome MCL violations. 05/05/17 (JSD): This system is part of the North Edwards Water District's funding project. DDW plans to issue a new compliance order to North Edwards Water District to establish a compliance deadline. Once the NEWD compliance order is issued, DDW will determine the next course of action for Sunset Apartments. 02/06/17 (JSD): Negotiations between DFA and NEWD to restart the funding project have been unsuccessful. DDW plans to issue a new compliance order to NEWD to establish a deadline to comply with the arsenic MCL. 11/09/16 (JSD): Sunset Apartments is part of the NEWD P84 construction funding

11/06/18 (JSD): Arsenic pilot study is still in progress. No significant update from last quarter. 08/20/18 (JSD): A pilot study for arsenic removal treatment is in progress since late July 2018. The pilot study is expected to be completed within two to three months. 05/14/18 (JSD): A pilot study protocol for arsenic removal has been developed and submitted to DDW for review. Plan to start the pilot study in June after approval of the pilot study protocol. 03/06/2018 (JSD): Self Help Enterprises is working with McMor Chlorination (receiver) to look for interim solution for arsenic compliance. Due to having a better control on managing the treatment, McMor prefers a centralized treatment versus POU/POE option. 11/27/2017: DDW recently met with Self Help to discuss this project to get the TA project off the ground. Mandatory consolidation with Rosamond is not an option at this time since William Fisher is 5 to 6 miles from Rosamond CSD and consolidation is not cost effective considering that William Fisher has less than 20 service connections. 11.09.17 (JSD): New Compliance Order No. 03_19_17R_014 issued on 11/3/17 to McMor Chlorination (court appointed recever) with a compliance deadline of 11/30/2020. Selfhelp Enterprises and McMor are working together to look for interim solution for arsenic compliance which may include POU treatment. 08/07/17(JSD): McMor Chlorination continues to operate the water system as the new receiver. Decision about issuance of a new compliance order has not been made yet by the DDW management. Self Help Enterprises is working on a Prop 1 project to get started on an arsenic compliance planning project; progress is slow. 07/05/17 (JSD): Issuance of a new CO to NEWD is currently on hold per DDW's management decision due to hex chrome court order. The plan was to issue one CO to NEWD for both arsenic and hex chrome MCL violations. 05/05/17 (JSD): As of 4/01/17, McMor Chlorination is the new court appointed receiver. DDW and DFA will work with the new reciever to achieve arsenic MCL compliance. Under consideration is POU arsenic treatment using CAA funding from DFA. 02/06/17(JSD): RCSD has expressed concerns over the cost of operation of the Wiliam Fisher being significantly over the revenue and is planning to petition the court to be relieved of the receivership. DDW has identified a new receiver and will petition the court to appoint a new receiver. DDW plans to issue a new compliance order after the new receiver is appointed. No significant progress on arsenic MCL compliance since the last update in Nov. 2016. 11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the long consolidation pipeline and issues related to getting easement for the pipeline, consolidation of William

11/06/18 (JSD): RS MWC has filed an application to become 501(C). Monthly calls are ongoing. DFA to provide status update of the funding agreement issuance. 08/20/18 (JSD): RS MWC is working with Self Help to file paperwork to become 501(C) - non profit. Monthly conf. calls are being held between all parties to keep the project moving closer to issuance of a funding agreement. 05/14/18 (JSD): RS MWC has just finished incorporation and adopted the bylaws. Cal Water is reviewing the draft consolidation agreement. 03/06/2018 (JSD): Self Help is working with UC Davis and DFA to make RS MWC a legal entity. DFA to provide update on status of issuance of the funding agreement. At this time, there is no established deadline to achieve compliance. 11.09.17 (JSD): No status change from previous update. 08/17/17 (JSD): With the help of UC DAVIS and Prop 1 TA project, RS MWC is working on becoming a legal entity. Once RS MWC becomes a legal entity, the next step would be to issue a funding agreement. 05/05/17 (JSD): Per recent email communication, DFA working with RS MWC to help the water company become legal; at this time it is unknown as to who will sign the funding agreement for the consolidation project. During the meeting with Cal Water on 2/06/17, Cal Water did not agree to sing the funding agreement on behalf of RS WMC but agreed to further consider this option. 02/06/17 (JSD): A joint meeting between DFA, DDW and Cal Water is being planned in Feb. 2017 to discuss consolidation projects with Cal Water and pursue Cal Water to sign funding agreement on behalf of RS MWC. 12/12/2016-DFA attempting to negotiate with Cal Water to accept FA on behalf of RSMWC. 11/09/16 (JSD): According to DFA, Kern County has concerns about signing a funding agreement on behalf of RS MWC since RS MWC does not have proper legal formation documents. A conf. call was held on October 25, 2016 among DFA, DDW and RS MWC to

11/06/18 (JSD): No significant update from last quarter. DFA to provide update on the status of negotiations with NEWD. EPA should consider issuing an administrative order to NEWD, Fountain Trailer Park and Sunset Apartments for the arsenic MCL violation. 08/20/18 (JSD): No significant update from last quarter. DAF to provide update on the status of negotiation with NEWD to restart the construction project for consolidation and arsenic treatment. 05/14/18 (JSD): No further progress. DFA to provide update on the consolidation project with NEWD. 03/06/2018 (JSD): DFA to provide status on restarting the construction funding project for consolidation with NEWD. Funding for the bottled water project is ending in April 2018. DFA to decide if funding for bottled water will continue. 11/27/2017: Per recommendation from DFA, a revised CO is on hold so that negotiations to start the construction funding project again don't jeopardize. DFA to provide status of the construction funding project. 11.09.17 (JSD): No further progress has been made on the construction project. DDW is not aware of any new construction work following issuance of the amendment to the funding agreement. 08/07/17 (JSD): An amendment to the P84 construction funding agreement has been issued to North Edwards Water District to start the construction project again, and the completion date is 12/01/17 according to the amendment which may not provide enough time to complete the project. Efforts underway to extend the deadline. Issuance of a new CO to NEWD is currently on hold per DDW's management decision. 05/05/17 (JSD): This system is part of the North Edwards Water District's funding project. DDW plans to issue a new compliance order to North Edwards Water District to establish a compliance deadline. Once the NEWD compliance order is issued, DDW will determine the next course of action for Fountain Trailer Park, which may include a new compliance order for Fountain Trailer Park. 02/06/17 (JSD): Negotiations between DFA and NEWD to restart the funding project have been unsuccessful. DDW plans to issue a new compliance order to NEWD and FTP to establish a deadline to comply with the arsenic MCL. 11/09/16 (JSD): FTP is part of the NEWD P84 construction funding project. Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions. 08/03/16 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to

11/18-send notice to request RTC extension due to funding and construction delays. CO issued for Well 1 which is now in compliance however, well 2 has been out of compliance - need to revise or reissue the CO. 8/18 update - the construction application for the new well and pipeline is being submitted by Lamont PUD. Revisions to the constuction application needed - see Lamont below. 12/1/2017: The water system completed the planning application and is now working on the construction application. The construction application was submitted a couple of weeks ago, but it was deemed incomplete since there was no financial package attached. Self Help Enterprises is submitting all of the

11/06/18 (JSD): The well design was modified and the well has been completed. No decision made yet regarding issuance of a new CO or amendment to the current CO. 08/20/18 (JSD): Design changes made to the well design to address concerns about caving of the well. Having some problems in getting the work done (installation of the casing) due to the field conditions. Decision regarding issuance of an amended or new CO not made yet. 05/10/18 (JSD): Test well drilling project got delayed due to concerns about caving of the well. Change order in progress to continue drilling the well. Some initial test results from the well show low arsenic and uranium but high radium 226. More testing will be done after drilling the test well deeper. 03/06/2018 (JSD): Test well drilling in progress. Once the test well is completed, we will know if the well is successful to solve the arsenic problem. 11/27/2017: POU's or other interim measures will not be considered as a construction funding agreement has already been issued; bidding is in progress. 11.09.17 (JSD): Bidding documents are under review. Getting ready to bid phase 1 of the construction project. 08/07/17 (JSD): Construction funding agreement has been executed with a project completion date of Nov. 1, 2019. 07/05/17 (JSD): Construction funding agreement just got issued; DFA to provide more details. 05/05/17 (JSD): Same updates as the previous quarter; some delay in issuance of construction funding agreement. 02/06/17 (JSD): same update as the fourth quarter of 2016. 12/12/2016- Construction application is being processed. 11/09/16 (JSD): P84 planning project has been completed. The water system is in the process of completing a construction funding application. 08/03/16 (JSD): Planning project is essentially complete. The water system is working on filing the

8/18-New CO for arsenic. System had a CO issued for arsenic in 2009 by District 19 but the system returned to compliance based on several years of arsenic RAA below MCL. However, the arsenic levels increased again and they

11/06/18 (JSD): Draft consolidation agreement has been sent to the water system by RCSD. If the water system does not sign the agreement before the end of December 2018, then DDW plans to issue a mandatory consolidation order. 08/20/18 (JSD): The June 15, 2018 public meeting was well attended. DDW is holding a public hearing on 09/05/18 to further discuss the regional consolidation project and SB 88 mandatory consolidation order. The public hearing is being held in case DDW has to issue mandatory consolidation order. RCSD is planning to send the draft consolidation agreements to all 8 small systems before the upcoming public hearing. 05/14/18 (JSD): DDW received updated plans and specs on 5/10/18. DDW is holding a public meeting on June 12, 2018 to discuss the regional consolidation project and SB 88 requirements about mandatory and volunteer consolidation. Customers of 8 water systems that are part of the project have been invited to the meeting. 03/06/18 (JSD): DDW is waiting for receipt of the updated plans and specs. RCSD is in the process of completing an application for construction funding. In January 2018, DDW issued a letter alerting the water system and RCSD about the authority under SB 88 for mandatory consolidation. 11.09.17 (JSD): DDW met with GEI on 10/20/17 to discuss comments on the draft plans and specs of the regional consolidation

11/18-no update completing income surveys. 8/18-No update. Contacted system on 8/15/18 regarding request for extension on the compliance. System has been waiting for the East Niles project - but system is not DAC and grant funding not available unless an income survey is done and they meet the DAC requirements. They may need to pursue interim solution. 2/18-no update on the East Niles consolidation project. 12/1/2017: According to Vince Trino, President, the water system tried to rehab Well No. 1 approximately three years ago to blend with Well No. 3. Well No. 1 dried out due to the drought, so the water system decided to pursue a consolidation project with East Niles. The consolidation project is still moving forward, but there was a delay in the funding due to the MHI. 5/17: The system is participating in the East Nile consolidation project which is dependent on East Niles getting construction FA. In addition, the system has been blending the two sources of supply in a storage tank before going to customers.

Just curious if their previous several years of RAA below the MCL was based on changes in source water or did they take action to return to compliance?

11/18-Nothing but Consolidation Order issued to City of Bakersfield for 2 MWCs located along the alignment. Question on the schools disadvantaged status delayed issuing CO for the school. However, AB 2501 has changes to the definition of disadvantaged status for schools in Mandatory Consolidation - the school may meet the new definition. DO has requested address information for all the students from the school to make that determination. School also applying for bottled water/bottled water filling stations. 2/18-No movement but SB 88 CO was drafted and is in legal review and Executive staff on issuing to the City of Bakersfield. 12/1/2017: The will not be in compliance by 12/17. The City of Bakersfield is not agreeing to consolidation so we are going through the formal SB 88 process. We have a draft CO with mandatory consolidation for the City of Bakersfield. It is going through DDW legal review. Bottled water is provided to students through the CAA fund. Earliest compliance with consolidation is probably 18 months away. 5/17-working with the City for consolidation - had another mtg on 3/28/17 with Lakeside and City. Public mtg scheduled for 2/17 with school. 6/16 - Mandatory consolidation letter sent out 6/16. Solution will

11/06/18 (JSD): Draft consolidation agreement has been sent to the water system by RCSD. If the water system does not sign the agreement before the end of December 2018, then DDW plans to issue a mandatory consolidation order. 08/20/18 (JSD): The June 15, 2018 public meeting was well attended. DDW is holding a public hearing on 09/05/18 to further discuss the regional consolidation project and SB 88 mandatory consolidation order. The public hearing is being held in case DDW has to issue mandatory consolidation order. RCSD is planning to send the draft consolidation agreements to all 8 small systems before the upcoming public hearing. 05/14/18 (JSD): DDW received updated plans and specs on 5/10/18. DDW is holding a public meeting on June 12, 2018 to discuss the regional consolidation project and SB 88 requirements about mandatory and volunteer consolidation. Customers of 8 water systems that are part of the project have been invited to the meeting. 03/06/18 (JSD): DDW is waiting for receipt of the updated plans and specs. RCSD is in the process of completing an application for construction funding. In January 2018, DDW issued a letter alerting the water system and RCSD about the authority under SB 88 for mandatory consolidation. 11.09.17 (JSD): DDW staff met with GEI on 10/20/17 to provide comments on the plans and specs. Updated plans and specs are awaited. 08/07/17 (JSD): Updated plans received on July 20, 2017; they are under review by DDW. Updated specs are awaited. 07/05/17 (JSD): Per recent email communication with the engineer (GEI Consultants), the revised plans and specs will be submitted for review before July 15, 2017. 05/05/17 (JSD): DDW completed review of the draft plans and specs for the regional consolidation project and provided comments on February 21, 2017. As of 5/5/17, updated plans and specs have not been received. 02/06/17 (JSD): Revised plans and specs for the regional consolidation project have been received; they are under review by the DDW staff with a goal to complete review by 02/15/17. 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the

11/18-Sampling of POU provided - evaluating the results to determine if RTC can be made. 8/18-All 16 devices are installed - however, monthly reports have not been submitted and monthly sampling of 1/12 of the units have not been conducted. Contacted system on 8/15/18 regarding this issue and will work with the system on these submittals. Hope to return them to compliance by the end of the 3QTR. 2/18-no update. 12/5/2017: Cristina mentioned the water system has been on track to meet the RTC date. 5/17 - System is waiting to install the remaining 12 POU devices until the ordered TDS meters and flow meters arrive. - No funding updates as they are

11/06/18 (JSD): As of 4th quarter of 2018, the water system has been inactivated. QVWD-Eastside System (1502724) is now part of the QVWD-Westside System (1503226) and receive water that complies with the arsenic MCL. 08/20/18 (JSD): As of second quarter of 2018, the water system has returned to compliance with the arsenic MCL, as documented in letter dated 06/25/18 from DDW. Well 02-Pretoria was inactivated. A permit amendment application dated 08/17/18 received from QVWD for consolidation of the QVWD-Eastside System (1502724) with the QVWD-Westside System (1503226). 05/14/18 (JSD): QVWD-Eastside is now receiving water (complies with the arsenic MCL) from the QVWD-Westside thru the intertie with the Westside system. Test well drilling for the Westside system is in progress. 03/06/18 (JSD): The pipeline project for connecting the QVWD-Westside System and QVWD-Eastside System has just been completed. The pipeline is going thru testing at this time. In the future, water from the Westside System will soon start flowing to the Eastside system. Westside System has water that complies with the arsenic standard. Eastside system will be kept active for sometime until a new well is drilled on the westside and there is enough water available to supply to both systems. A contract for the drilling the well on the westside has already been issued. 11/27/2017: system is on target to meet RTC date of 4/30/2018. Not pursuing any interim funding for bottled water. 11.09.17 (JSD): Contract for starting construction of Phase 2 of the project has recently been awarded. This phase includes the new well. Connections to the new pipelines are in the process of being completed. 08/07/17 (JSD): Pipeline installation phase is almost complete. Bidding for the second phase (drilling of a new well) is in progress. 05/05/17 (JSD): Pipeline installation in progress to consolidate QVWD-East and QVWD-West. 02/06/17 (JSD): Construction work is in progress. 11/09/16 (JSD): After bidding, first phase (consolidation pipeline work) of the

	Consolidation
6/3/2018	

11/06/18 (JSD): The water system has signed the consolidation service agreement with RCSD. DFA to issue construction funding agreement to RCSD. 08/20/18 (JSD): The June 15, 2018 public meeting was well attended. DDW is holding a public hearing on 09/05/18 to further discuss the regional consolidation project and SB 88 mandatory consolidation order. The public hearing is being held in case DDW has to issue mandatory consolidation order. RCSD is planning to send the draft consolidation agreements to all 8 small systems before the upcoming public hearing. DDW issued an amended CO #03_19_17R_003A to the 60th Street Association Water System on 07/03/18 with a compliance deadline of 04/30/21. 05/14/18 (JSD): DDW received updated plans and specs on 5/10/18. DDW is holding a public meeting on June 12, 2018 to discuss the regional consolidation project and SB 88 requirements about mandatory and volunteer consolidation. Customers of 8 water systems that are part of the project have been invited to the meeting. 03/06/18 (JSD): DDW is waiting for receipt of the updated plans and specs. RCSD is in the process of completing an application for construction funding. In January 2018, DDW issued a letter alerting the water system and RCSD about the authority under SB 88 for mandatory consolidation. 11/27/2017: Not enough quarters with RAA below the arsenic MCL to RTC although there have been some quarters with RAA value below the arsenic MCL. 11.09.17 (JSD): DDW staff met with GEI on 10/20/17 to provide comments on the plans and specs of the regional consolidation project. Updated plans and specs are awaited. Compliance order for hexavalent chromium MCL has been rescinded due to invalidation of the MCL. 08/07/17 (JSD): Updated plans received on July 20, 2017; they are under review by DDW. Updated specs are awaited. 07/05/17 (JSD): Per recent email communication with the engineer (GEI Consultants), the revised plans and specs will be submitted for review before July 15, 2017. 05/05/17 (JSD): DDW completed review of the draft plans and specs for the regional consolidation project and provided comments on February 21, 2017. As of 5/5/17, updated plans and specs have not been received. 02/06/17 (JSD): Revised plans and specs for the regional consolidation project have been received; they are under review by the DDW staff with a goal to complete review by 02/15/17. DDW plans to issue a new compliance order before 03/31/2017. 11/09/16 (JSD): draft plans and specs have

11/18 - Still waiting for Construction FA from DFA. 8/18-System waiting for Construction FA. 2/18-System drilled 3 test wells-need to secure funding for final 3 wells and transmission pipe. EPA site visit on 2/23/18. 5/17-securing 2-3 test well locations and moving forward-submitted planning application for these test wells which is currently being processed. 12/8/2016 - Phase 1 - Project complete. Closing out FA. Arvin is working on submitting a planning study for the additional 3 wells (site selection and drilling test wells) in addition to a construction application for the completion of those 3 wells. 9/16-wells online - one well has elevated arsenic - on quarterly sampling. Applied for

11/06/18 (JSD): As of 4th quarter of 2018, Boron CSD is on 100% AVEK water. The switch to AVEK water started on 9/28/18. Sampling conducted in October 2018, from the distribution system shows arsenic level below the MCL. Boron CSD is in compliance with the Arsenic MCL as of 4th quarter of 2018. Boron CSD has submitted a permit amendment application to make its high arsenic well standby. 08/20/18 (JSD): 05/14/18 (JSD): Boron CSD working on the water rates to be able to afford 100% AVEK water, deadline to switch to 100% AVEK water is October 1, 2018. Boron CSD only serves one school in the area, Boron High School. DDW and DFA are working to approve funding for bottled water for the school until the school starts receiving water that complies with the arsenic MCL. 03/06/18 (JSD): A conf. call was held with the water system, DFA and consulting engineer to discuss the option of switching to 100% AVEK water which complies with the arsenic standard. Water rates will need to be increased to switch to 100% AVEK water. To allow the water system's board to evaluate the current water rate and to go thru the rate increase, deadline to achieve compliance has been extended to October 1, 2018. Per CO, the RTC deadline is 3/9/2018. Due to delay in completing the SRF planning project, it is unlikely that this system will achieve compliance by the RTC deadline. Check with DFA on the project progress. 11.09.17 (JSD): No significant update from the previous update. 08/07/17 (JSD): Authorization given by Boron CSD to evaluate lowering the arsenic level in Well 15 by sealing off certain water producing zones and evaluate arsenic compliance by combination of blending Well 15 and/or 100% AVEK water. 05/05/17 (JSD): Scope of the funding project is being amended to allow evaluation of blending with AVEK water,

8/18- project has been delayed with funding as a new constuctin application is required to be submitted. We met with the system for a 1,2,3-TCP CAP and discussed the funding application which they thought was completed. Based on a review and discussion with DFA there were some items missing and follow-up is needed. System is working on the funding applciation. 5/17- Well 19 exceeds the arsenic MCL RAA at 11 ppb - CO is drafted. Well 12

11/06/18 (JSD): DFA continues to work on the funding agreement for construction. No decision made on the CO. There is a change in the water system's management and board. 08/20/18 (JSD): No significant update from the last quarter. There is a change in management of Rand CWD. Pending issuance of the construction funding agreement, DDW has not made any decision about issuing an udated CO to Rand CWD and establish a new deadline. 05/14/18 (JSD): Construciton Funding agreement is pending with DFA for issuance. 03/06/18 (JSD): DFA to provide update on the status of issuance of funding agreement for construction. 11/27/2017: A construction funding application has already been submitted. DFA is in the process of reviewing the application. Check with DFA on the target date to issue the funding agreement. 11.09.17 (JSD): No status chaneg from the previous update. 08/07/17 (JSD): Construction funding agreement has been issued. 07/05/17 (JSD): The proposed solution is a new well and blending treatment of existing wells wit the new well. DFA to comment on the time line for the construction funding application. 05/05/17 (JSD): P84 planning project completed; construction funding application is in progress. 11/09/16 (JSD): Review of updated environmental documents is in progress by BLM. The funding agreement was amended to extend the project completion deadline to December 31, 2016. The project is expected to be completed by Dec. 31, 2016. 08/03/16 (JSD): ERU of SWRCB and Rand CWD are working with BLM to address their comments on the envfironmental documents;

11/18-System requested RTC extension - system receiving private funding for construction project. Estimated to go to bid early 2019. 8/18-No updates. Contacting the system regarding failure to meet the RTC deadline. System will need to request an extension and explain why they have not meet deadline and provide an estimate of RTC. District Office will need to issue a revised CO or issue a Citaiton for non-compliance with the CO. 2/18-System having issues with DFA and legal aspects of rates. May need to have a Prop. 218 to raise rates so they can get a funding

11/06/18 (JSD): No significant update from last quarter. DFA to provide update on the status of negotiations with NEWD. EPA should consider issuing an administrative order to NEWD, Fountain Trailer Park and Sunset Apartments for the arsenic MCL violation. 08/20/18 (JSD): No significant update from last quarter. DAF to provide update on the status of negotiation with NEWD to restart the construction project for consolidation and arsenic treatment. 05/14/18 (JSD): No further progress. DFA to provide update on the restarting the construcion funding project. 03/06/2018 (JSD): DFA to provide status on restarting the construction funding project. 11.09.17 (JSD): No further progress has been made on the construction project. DDW is not aware of any new construction work following issuance of the amendment to the funding agreement. 08/07/17 (JSD): An amendment to the P84 construction funding agreement has been issued to North Edwards Water District to start the construction project again, and the completion date is 12/01/17 according to the amendment which may not provide enough time to complete the project. Efforts underway to extend the deadline. Issuance of a new CO to NEWD is currently on hold per DDW's management decision. 07/05/17 (JSD): Issuance of a new CO to NEWD is currently on hold per DDW's management decision due to hex chrome court order. The plan was to issue one CO to NEWD for both arsenic and hex chrome MCL violations. 05/05/17 (JSD): This system is part of the North Edwards Water District's funding project. During the second quarter of 2017, DDW plans to issue a new compliance order to North Edwards Water District to establish a compliance deadline. 02/06/17 (JSD): Negotiations between DFA and NEWD to restart the funding project have been unsuccessful. DDW plans to issue a new compliance order to NEWD to establish a deadline to comply with the arsenic MCL. 11/09/16 (JSD): Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by

11/5/18 The school is moving forward with Prop1-TA Work Plan 5035-A to find a permanent treatment solution for arsenic removal. No further reports regarding consolidation with the Tachi Tribe. 8/10/18 - The school is moving forward with a Prop 1 funding application to look for a permanent solution. A Prop1/TA Project call was done on 6/28/18 with the SWRCB, school, KC LPA and Sacramento State OWP to gather information and discuss the work plan. 5/10/2018 - The school was approved to receive bottled water. We learned from Christina Carroll that the tribe will once again bring up the matter of supplying water to the school on the agenda at their next council meeting this month. If approved, the tribe may supply water to the school on a term limit of 5-10yrs. 2-9-18: No new updates since last discussion with water board and EPA on 12-8-17. 11/27/2017: Consolidation remains the best option for the school. If there's anything that EPA can do to advocate on behalf of the school, it would be beneficial, but it's my understanding that negotiations between the tribe and the school have stopped. The Tribe's water treatment operation is inspected by EPA and they were aware of the school's request to consolidate from the very beginning. 11/3/17: The consolidation project remains pending, but the school has begun to look at alternative options to achieve compliance. RCAC submitted a Prop1 TA Workplan on 9/9/16 for a planning grant application for arsenic remediation. 8/1/17: No status change from previous update. 5/4/17 Still pending the approval from the tribal council. 2/1/17 - David Wallis from RCAC spoke to the Tribal EPA Director, Noah Ignacio on 1/24/17 and he is pending a response from the tribe to schedule a tribal council meeting this month, February 2017 to further discuss this project. 1/10/2017: DE and LPA visited Tachi Palace on 12/2/16 and based on the review of the USEPA sanitary survey conducted on Tachi Palace and the visit, it appears that Central Union would be served water from a water system that is well operated, permitted and meets the Safe Drinking Water Act. DDW support this consolidation project. 10/31/16 Currently looking to see if consolidation with the Santa Rosa Rancheria is a potential long term solution for the school. A site assessment

11/5/18 - The school is expecting to get approval at their next board meeting scheduled on 11/15/18 to award the winning bid. Piping installation is expected to start in December or January 2019. 8/10/18 - No new updates to report for this system. 5/10/18 The school is expected to consolidate with the Kettleman City Community Water District int the fall 2018 or by early 2019. 2-9-18: No status change since previous update. 11/3/17: The school is under

11-5-18 - CVM has not responded to the compliance order with rescindable fees. The LPA welcomes any further recommendations from EPA that may assist with meeting compliance. 8/10/18 - No new updates to report for this system. 5/10/2018 - A new compliance order No. 04_46_18R_001 was issued to CVM on 4/1/2018 under the guidance of DE, Tricia Wathen. The RTC date remains 01/01/2019. 2-9-18: Under the guidance of Tricia Wathen, District Engineer, the LPA is drafting a new compliance order to include rescindable fines. The order will first be reviewed and approved by the DE prior to sending it to CVM. 11/3/17: LPA discussed next steps with DE during LPA's annual evaluation. DE recommends to issue new compliance order and include rescindable fines to achieve compliance. LPA will work with DE to track progress on a monthly basis. 8/1/2017: We have not had any response from CVM regarding treatment installation since the last report. Expansions to their production facilities are expected to occur in the coming year and we have indicated on their plan review that they must meet compliance with all drinking water standards and in addition, no permits will be issued for additional domestic well(s) unless a treatment is proposed or

11/5/18 KWRA continues to successfully operate the RO-POU stations. No new updates to report. 8/10/18 - KWRA has completed the RO-POU pilot study with non detect results. Operating and maintenance will be done by their distribution/treatment operator. The permit was amended to reflect the RO-POU installation. 5/10/2018 - KWRA was approved to conduct a pilot study April through June, 2018 for two POU-RO stations for arsenic treatment. Results show non-detect levels so far. 2-9-18: KWRA continues to research POU treatment options and the LPA expects to receive a proposal in the coming months. 11/3/17: LPA met with new ED for KWRA in August to discuss the terms of the compliance order for failure to meet the arsenic MCL. The new director is agreeable to implementing treatment and has begun researching treatment options and vendors. A progress update is due at the end of December 2017. 8/1/17: A meeting with the new executive director has been scheduled for August 31, 2017 to discuss options for meeting compliance. 6/30/2017: EPA has identified this system to be a recalcitrant PWS. Recommend DDW oversight

EPA is continuing coordination attempts.	
No current comment.	
Has this system installed POU's at each of the service connections (looks like there are 3 service connections total but possibly only 2 POU's installed)? Since the permit has been amended and POU's are operated successfully, can this system be returned to compliance?

11/5/18 No new updates to report for this system. 8/10/18 - No new updates for this system. 5/10/2018 - No new updates for this system. 2-9-18: A permit application packet has been provided to the facility project manager. The packet included the technical report guidance document and a request for source plans ahead of any well installations. The new well project is expected to be completed at the end of 2018 or early 2019. 11/3/17: No changes from previous update. 8/1/2017: Baker has filed a CUP notice with Kings County Community Development Agency for the project review of their new site. The CUP includes a new installation at the new site. We will work with Baker Commodities on their proposed plans and request a contingency for treatment in the event the well cannot meet standards. Consolidation with the City of Hanford seems unlikely based on the location of the proposed plant. We will consult with our DE (Tricia Wathen) for assistance and direction with the project. 6/30/2017: The system will be relocating to a new site and will research consolidation with the City of Hanford or install a new source if consolidation is not feasible. They understand that installation of a new source requires meeting all primary and secondary drinking water standards or providing treatment as needed. 5/4/17 Baker commodities is expected to relocate in late 2018 and be operational at their new site in early 2019. LPA has requested plans for their domestic supply, and in addition, they will also research

11/18-Construction estimated to be completed in 12/18. System trying to hire the T3 contract operator and to draft Ops. plan. Est. to begin commissioning plant in Jan. 19. 8/18-Construction underway - estimate to be completed in November 2018 and then they will need to start commissioning the plant. Working on an RFP for an operator which at his point they do not have hired for November operation. System has not requested an extension - need to contact the system regarding this issue. 2/18-Construction has started. Estimated completion is fall 2018. 5/17-construction bid opening is 5/24/17 and then proceed with awarding the contract. Hopefully approval in June to award in June. 12/16-SWRCB meeting discussed project on 12/8 and FA should be following quickly in first Qtr. 2017.

10/22/18 the system continue to test Arsenic quarterly and provide Public Notification. No additional comments. 7/23/18-EPA scheduled a site inspection on August 2, 2018. No other changes for this quarter, continue to test Arsenic quarterly and provided a public notification. 5/22/18: Referred to EPA for enforcement as of 4/30/2018. 1/31/18 No status change from previous update. 10/12/2017: Culligan provided initial treatment costs for centralized treatment. Operator with Culligan engineer to discuss treatment installation and other pertinent details. Continue to test source(s) quarterly. 7/6/2017-The DE and LPA met with the water system operator. Next call on 7/21/2017 will include Culligan, the owners, and the operator to talk about treatment options. 4/19/17-spoke with Alisa Morrison. the water system is working with Road Runner Pump Company to come up with affordable filters. Alisa indicated that they need at least a year to find, install and test. She also mentioned that drilling new well and installation of POU devices is expensive and not feasible for the system. Currently they are not providing bottled water. 12/29/16-LPA contacted the system operator, who indicated it was no changes in status since October 2016. **10/6/2016-** Spoke with Alisa Morrison. The water system has applied for funding. Tony Morrison (water system operator) attended the Arsenic workshop on July 6, 2016. They have looked into treatment options (with Isolux Company) but determined it was too expensive (45-50K). Alisa Morrison stated that POE treatment will be too costly because of the additional testing that will be required. The Village MHP is continually looking into more affordable treatment options but so far have not found any. They are currently providing 5 gallon jugs of bottled water to their residents. **6/30/2016:** The water system

10/22/18 the system continue to test Arsenic quarterly and provide Public Notification. No additional comments. 7/23/18-EPA scheduled a site inspection on August 3, 2018. No other changes for this quarter, continue to test Arsenic quarterly and provided a public notification. 5/22/18: Referred to EPA for enforcement as of 4/30/2018. 01/31/18 continuing the project as per Compliance order. the information on water quality from the test well had been submitted to the SWRCB for review. 10/12/2017: test well is installed and initial water quality testing will begin 10/19/2017. 7/6/2017-In a funding agreement, task #1 is to drill a test well completed by late summer, review WQ data, and report the information. Results should be revealed sometime in August. 4/19/17- spoke with Mr. Charles Norris, who stated that they received funding and will follow all steps and due dates on the funding agreement. They don't provide bottled water. 12/6/16- There are no new updates to report on this system. Mitchell's Avenue MHP is still waiting for State funding. **10/4/2016-** Received an email from Charles Norris. See attachment. **6/30/2016:** On June 28, 2016, Los Angeles County Drinking Water Program (LADWP) received Project Extension Notice for Mitchell's

Is the "end of 2018, beginning of 2019" timing still correct for completion of the new well project?

Referred to EPA -- EPA issued NOV on 10/17/2016. 7/25/2016: No status change from previous update. **6/13/2016:** Well 8's latest arsenic concentrations was at 10 ug/L and 10.2 ug/L. The Company is planning to further reduce Well 8's production from 600 gpm to 400 gpm, hopely to lower asenic concentrations. Well 7 is not permitted yet, still waiting for SC Edison to hook up the power, initial arsenic sampling showed the concentrations was at 7.5 ug/L, it is too early to discuss its arsenic compliance. **April 18, 2016:** Well 8 was out of compliance with arsenic MCL in the first quarter of 2016. **January 11, 2016:** Well 8 was out of compliance with arsenic MCL in the fourth quarter of 2015, the Company will take another arsenic sample for Well 8 on January 12, 2016 to confirm the forth quarter's result of 21 ug/L. The new Well 7 is drilled, however, it is waiting for SCE to install new power line. **9/14/215:** the drilling of a new well, Well 7, is in progress. Enforcement History: May 23, 2008 - Notice Of Violation issued for violating Federal arsenic MCL. January 6, 2009, Compliance Order issued for violating arsenic MCL (this Compliance Order did not meet EPA's formal

11/05/2018 This system has been in limbo between state small and community water system classification. It is going through a change of ownership and will address all issues with the new owner due to lack of response from previous

11/05/2018 YEs, the system did hear back from the Forrest Service due to direct contact information provided during a meeting. Now the water system has indicated they are waiting for an updated rate study report from RCAC that includes Bass Lake Annex#3 MHI and the approved grant amount. 07/25/2018 Medium Household Income Study was completed on May 29, 2018 and the MHI was found to be \$33,000. An updated cost estimate and updated Rate Study has been requested by Deisy Rios at SWRCB-DFA. Water system has requested an extension since they did not meet the comply by date of June 30, 2018. 05/10/2018 MHI income survey still being completed. Missing a couple of homes for completetion. 02/12/2018: Followed up with the US Forest Service contact and provided infomation in regards to the funding to see if the LPA can assist to expidte the process. Waiting to hear back from the US Forest Service. 11/25/2017: the LPA is awaiting comment from the DE about the EPA assistance that was offered to help intervene with the Forest Service. **8/7/2017 System is working on completing application for construction. The application is being updated from the older version to the most current. The application is composed of four packages (General, Environmental, Financial, and Technical) so Stephen is collecting the required attachments for each package, as applicable. For the technical package he is working with the engineer to collect the preliminary engineering report and estimated budget, and for the environmental he is working with our environmental review unit (ERU) to determine how to proceed. 5/01/2017 All comments are per the water system operator: The review period for the**

11/05/2018 Unable to re-issue compliance order last quarter but it will be re-issued this quarter. 11/05/2018 Water system population survey conducted concluded the water system does meet the definition of a community water system and will be subject to the strict timeline established by the SWRCB-DDW. 7/30/2018 Enforcements were turned over to SWRCB DDW. A citation was sent to the water system on 7/13/2018 by SWRCB-DDW. A survey has been sent to homeowners to determine the occupancy of the homes connected to the system. The purpose of the survey is to determine if the system is a CWS or a TNC water system. 05/10/2018 Monthly meeting held on March 12, 2018 with the water system representative following up on action items and prop 218. Madera County Public Work to go to the BOS for prop 2018 "notice of intent". Present via phone was also EPA, enforcement. 02/12/2018: Met with the home owner representative on 02/05/2018 with SWRCB, and MCPW to discuss compliance and the path forward. 11/27/2017 A meeting was held with DFA, SWRCB-DDW, Madera County Districts, and homeowners on October 18th to discuss how the water systems will move forward. The homeowners are to create a Board and report to Districts, then they will need to inform Districts on how they will move forward. 8/7/2017 Funding is being re-evaluated based on income eligibility. The system will need to pursue alternate funding sources, or self-fund treatment to come into compliance. 5/04/2017 Additional documentation is required from water system residents. Self Certification of Household Income & Occupancy needed to determine eligibility of the residents

11/05/2018 Unable to re-issue compliance order last quarter but it will be re-issued this quarter. The test well plans and specific location are in discussion. MHI TA was requested but system has not heard from Self-Help. 7/30/2018 Water system is moving forward with the planning phase. LPA will issue a revised compliance order. 05/10/2018 System is in the planning phase of the funding project. Looking at test well sites. System will not be able to meet the June 2018 deadline date. 02/12/2018: Funding has been awarded and meeting has begun. The water system is working towards compliance 8/7/2017 A site walkthrough was completed with consultants to begin the design and evaluation of the system. 05/04/2017 The State did not approve the funding and requested additional information for the

11/05/2018 Pilot testing was completed during the month of October 2018. An extension will be granted by MCEHD but the specific extension date is dependent on the results of the pilot study and treatment site selection. Date of extension TBD 7/30/2018 LPA will extend consolidation project deadline. Project completion is estimated to be the end of 2018 or beginning of 2019. 05/10/2018 Monthly meeting for status update on 05/09/2018 held and system is on track for compliance, but will not meet June 2018. System is progressing so RTC will be extended. 02/12/2018: Conference call with the SWRCB, DFA, MCPW, North Fork School, and CDC to discuss path forward with the consolidation and action items to be completed. The project will move forward with granulation filtration and not adsorptive media. 8/7/2017 It has been proposed that the location of treatment facilities be moved to County property instead of North Fork Union school property. The Arsenic Pilot study will be developed in the next few months. 05/04/2017 No status change from previous update 1/3/2016-The new funding agreement was approved. Amending the contract with the contractor because the scope of work has changed. 12/8/16- Planning will complete 12/31/17 and county will submit construction app. 9/13/2016: Per the DE, the previous funding agreement terms

No current comment.

11/05/2018 Pilot testing was completed during the month of October 2018. An extension will be granted by MCEHD but the specific extension date is dependent on the results of the pilot study and treatment site selection. Date of extension TBD. No results for 3Q18 MnR violation issued. 7/30/2018 LPA will extend deadline for consolidation project. Project completion is estimated to be the end of 2018 or beginning of 2019. 05/10/2018 Monthly meeting for status update on 05/09/2018 held and system is on track for compliance, but will not meet June 2018. System is progressing so RTC will be extended. 02/12/2018: Conference call with the SWRCB, DFA, MCPW, North Fork School, and CDC to discuss path forward with the consolidation and action items to be completed. The project will move forward with granulation filtration and not adsorptive media. 11/08/2017 The school board and MD 8A met on 11/01/2017 to discuss moving forward and treatment **8/7/2017 System completed Interim Water Supply Application in July 2017. It has been proposed that the location of treatment facilities be moved to County property instead of North Fork Union school property. The Arsenic Pilot study will be developed in the next few months.** 6/30/2017: System is consolidating with MD8A as part of a regional consolidation project. 5/11/2017: the school is going forward with the application for securing funding to install bottled water filling stations as an interim solution. The school provided a copy of the Resolution that needs to be passed by the Chawanakee School Board in order to complete the Interim Water Supply Application for the installation of water bottle filling stations on the North Fork Elementary and Mountain Oak School campuses to the District Engineer. 5/1/2017 North Fork Union Elementary School is pursuing CAA funds to fully implement a program to provide an alternate source of supply for drinking water 2/6/2017: North Fork Union school is not providing any bottle water service. 1/3/2016-The new funding agreement was approved.

11/05/2018 No update available and no results for 3Q18 MnR issued to system. 7/30/2018 No longer eligible for DFA funding. LPA will issue a revised compliance order within the quarter. 05/10/2018 Meeting with residents held on 4/29/2018. DFA was present and explained why funding/grant is being pulled. System is to form a work group and discussed how the system will comply. During the meeting residents were interested in POU. 02/12/2018: Funding has changed and DFA along with the SWRCB is holding a meeting with the residents to inform them of the changes. They will then need to discuss on how to achieve compliance. 1/08/2017 A HMI study was completed and will be moving forward with consolidation **8/4/2017 No status change from previous update 6/30/2017: System is to consolidate with Hillview Water Co (PUC) and consolidation agreement was ready to be executed. 5/4/2017 The state has deemed**

11/05/2018 Unable to re-issue compliance order last quarter but it will be re-issued this quarter. 10/09/2018 Met with new water system representatives to explain water system requirements due to CO and arsenic exceedance. All new personnel involved. 7/30/2018 Consolidation with MD #10 will be moving forward. LPA will issue a revised compliance order with updated dates. 05/10/2018 System will not meet June 2018 compliance, but will be extended as project is moving forward/progressing. 02/12/2018: Funding for consolidation has been approved. **11/08/2017 Moving forward with consolidation with MD 10 and Liberty High School water system. 8/4/2017 The water system representative has**

10/29/2018 Water system submitted revised proposed treatment plans for review to the Division. 7/30/2018 System submitted plans for treatment POE. LPA waiting for the system to resubmit plans with their corrections. 05/10/2018 System has not followed up with LPA, LPA will be holding an office hearing to obtain POE designs and etc. 02/12/2018: Followed up with the water system and still moving forward with POE. Purchased a POE unit, but need an engineer to assist with the design and pilot approval. **11/27/2017: The water system is looking for an engineered firm to assist with the O&M plan and proposal. 11/08/2017 The water system is working on an O&M plan for the Arsenic POE, progress is being made. 8/7/2017 System is meeting with Madera County 8-8-2017 to propose a filtration treatment system. 6/30/2017: The system is proposing to install POU. Working on a timeline and response from system.**

When does the LPA anticipate having all the information that is needed to make a decision on the extension date/deadline?	
Has there been any progress with the community workgroup in determining a path forward? Any further contact with PG&E on possible pipeline funding collaboration?	
Since the leadership is all new at the PWS, is the plan still consolidation?

11/2/2018: Construction of the AIM and WRT systems is nearing completion. Plant startup and commissioning will be scheduled by the end of the year. On track to be returned to compliance by 3/31/2019. 8/8/2018: Project on schedule to be completed by the end of 2018. Delay in establishing power service for the site has caused overall delay in start-up. Plan to startup in September 2018. 5/24/2018: Construction on the arsenic/uranium/iron and manganese removal plant is nearing completion. Will be returned to compliance by the end of the year following the completion of the treatment system and monitoring to show removal to below the respective standards.; 7/25/17 The bid for the treatment system was awarded in July 2017 and the project completion date is March 2018. This and other Hillview Water Company projects ended up with consolidated bids for the treatment systems, site work and some other components. It resulted in cost savings to ensure that the entire project could get completed but also caused some delays. The System is on track to meet their compliance deadline and project completion deadline. 1/24/2017: Project

11/2/2018: Change of ownership to be completed by first quarter of 2019. Deadline to comply being extended to 3/31/2019. Currently blending with water from Well No. 2 and the blended effluent meets the MCL for arsenic. Also exploring the drilling of another well. 8/8/2018: Ownership for the system is being transferred to a private CPUC-

11/2/2018: Construction project nearing completion. Plant startup and commissioning will commence by the end of the year. ON track to be in compliance by 3/31/2019. 8/8/2018: Project on schedule to be completed by end of 2018. 5/24/2018: Construction project nearing completion. Will be returned to compliance once treatment is installed, tested and water quality results show there are no primary drinking water standards. This will occur in Fall 2018.; 7/25/17 The site work and some tank installations are complete and the treatment plant bids were just awarded in

11/2/2018: System provided the specifications on the treatment system they plan to install. Will install treatment by the end of 2018. Plant startup and commissioning will take place during the 1st quarter of 2019. 8/8/2018: Project on schedule to be completed by the end of 2018. Exploring options to deal with a 123-TCP violation but have emphasized the need to address the arsenic violation by end of 2018. Received engineering report for proposed

11/2/2018: POU project underway. To be completed by 12/31/2018. 8/8/2018: Project on schedule to be completed by end of 2018. The selected project will be a POU treatment system including five devices. The Division has reviewed and approved the locations. Waiting for the pilot to commence at one location. 5/24/2018: Approval was provided for the treatment system to be installed. This will be completed by September 30, 2018. The system's RTC date was extended to Dec. 31, 2018, to allow time for installation, testing and commissioning the new plant.; 7/25/17: The system just successfully installed an RO treatment system at another Foster Farms facility and is

11/2/2018: Selected alternative will be a POU project. Operator indicated POU devices would be purchased in the next month and the pilot would commence. 8/8/2018: Waiting on information on the POU device to be piloted. Will contact system for information and pilot protocol. 5/24/2018: Met with the system in April 2018 to discuss their CAP. Will be piloting the POU treatment system for removal of arsenic to levels below the MCL. This will include the

11/2/2018: New compliance order issued for arsenic MCL violation. Received CAP (due on 10/31/2018). Will review. City plans to separate this system from the domestic water supply system and use strictly for irrigation of

11/27/17 - 3rd quarter samples were collected 9/7/17 and public notice issued 10/15/17. As far as LPA knows there is no record of which houses have POU devices and what type of devices they are using. There is also no POU device monitoring occurring right now. Well 2 is being used and the current 3rd quarter result was at 31 ug/L sampled on 9/7/17 with the RAA at 33 ug/L. The engineers thought that Well 2 spiked so high because it was shut down and wasn't used for some time. Once it was flushed and put back on line the results dropped down to normal. SWRCB is drafting and reviewing the funding agreement. The project manager is away on Maternity Leave until March but there is another person assigned who is working on the credit review and board approval of the funding agreement. 8/7/17 - 2nd quarter samples were collected and public notice is being issued. 5/23/17 - no 1Q2017 samples submitted. 2/3/17 - a public notice was distributed for the 1Q2016 reporting period, violations are in the process of being entered in to SDWIS for the previous reporting periods. It is unknown if the public notices for the remaining 3 quarters in 2016 were distributed. 6/20/2016: Back-up help couldn't find the public notice info for Mono Sierra East so we will have to wait till

<p>Construction start date was established in the funding agreement for 3/8/17, but the funding agreement was not fully executed until 8/7/17. Bridgeport PUD did not want to execute their construction contract without the executed funding agreement so the construction did not start in early 2017. Winter is approaching, so the construction will not start until early 2018.</p>	

Estimated Aug2018	Treatment

10/26/18- BPUD submitted another deadline extension request. The adsorption media did not have guaranteed performance (medial life) during the RSSCT, and BPUD proposed coagulation/ filtration for long-term cost saving solution. DDW has drafted the letter requesting more inforamtion for this proposal. The letter is under the District Engineer's review. BPUD proposed deadline of 12/31/2019. **7/20/18** - Contractor KG Walters began site construction on May 14. Subgrade preparation and foundation for the building, and underground site utilities are almost complete. Even though the RSSCT pilot shows unsatisfactory media yielded results, BPUD still issued a Notice to Proceed dated June 25, 2018. **4/27/18** - BPUD had issues with the AdEdge Rapid Small Scale Column test yeilding 50% of expected life which will change treatment costs significantly, selection of treatment alternative is being reevaluated. 12/29/17- BPUD submitted extension request to DFA for extending completion of construction date from April 1, 2018 to December 31, 2018 in the funding agreement. 12/12/17- DDW approved the extension request of the CO deadline to December 31, 2018. The notice of Award for Procurement Contract was issued to AdEdge on December 19, 2017. 8/7/17- Bridgeport PUD received the funding agreement from DFA. The FA was signed by BPUD and is on its way. 5/2/17-System has gone out to bid with 5 companies interested, however the FA wants a 90 day pilot test and it may not be sufficient data to select a vendor, FA may be revised to exclude this condition. 1/19/17-Construction end estimated Apr 1, 2018; system is investigating with elementary school whether bottled water should be provided.

8/13/18-Further enforcement is pending since system missed deadline. 5/14/2018- system has contacted Isolux (recently intalled in nearby system) to see if can skip POU and go straight to centralized. 2/12/2018 - Majority of homes already have POU - system will do survey of devices so it can be deterined what is needed to permit as POU program and which homes still need device. Will not meet March RTC deadline since not all homes have POU. Most homes already have POU, but these need to be evaluated to see if they can be approved. Most will need to be upgraded with reliability equipment. Updated CO needed with start of pilot project for homes without devices and for those homes with devices that will not be able to be approved. f12/1/2017: They had a homeowner association meeting and agreed to move forward with POE. I expect a plan with pilot test proposal to be submitted by end of year. One home has a Culligan POE that they will mostly likely use. 11/8/17-had HOA meeting- working on bids for wellhead treatment and POE device to pilot. 6/27/2016: They may not meet the July 2016 date since they are very interested in POE/POU, which our county is just now considering so they need to do the cost analysis. We will reevaluate plans due date when we get the selected option. 2/24/2016: is not part of a disadvantaged community. They are self-funding their project by increasing rates or special assessment. Their first milestone is:

11/13/2018-Still going through legal battle with owner of property that surrounds well lot. New property owner (one over from well lot) has offered to give system an easement so they are negotiaing with him. 8/13/18- The system is self funding new well and has funding and has hired driller to complete well. They will go to POU if well isn't successful. 5/14/2018- system submitted an application for a new well. 2/12/18 - System reviewed all well logs and quality in area and since a few nearby deeper wells meet standards, system has decided to try and drill a well without arsenic and cadmuim. System has received 2 bids from drillers - 12/1/2017-The system will submit the plan by end of year and plans to quickly implement to meet the March deadline. The system will submit the funding application for central treatment as required as part of the POU application, but will self fund POU's. 11/7/17 - system is actively working on POU application. Attended training at county and received all forms to fill out. 5/5/17-wants to install POU-will start

Does district think that the proposed deadline will continue to slip?

11/31/2018-Starting pilot study-device will be in teachers lounge-using same device as used at Cypress Community Church. 5/14/2018- School board approved implementation of POU program until consolidation or centralized treatment in done and operator has started putting together application.2/12/2108 - Michelle Frederick, DE, and LPA met with superindendent in January and discussed option. School will meet with Cal-Am to discuss potential consolidation. Also discussed implementing POU program in interim. LPA will give presentation at Febuary Board meeting on POU. 12/1/2017: Michelle Frederick and the DE were exploring the possibility that the Board could require mandatory consolidation with nearby CalAm system who is receptive. However, it has been determined that while SB88 allows us to require mandatory consolidation, public schools are not considered DACs for this purposes so we cannot require mandatory consolidation in this case. Therefore, it is up to the system to decide how they intend to RTC. DE cc'd Gary Chan – not sure if he is the current Funding Project. Manager, but knew he was in the past. DE also added that the system was not involved in the discussion regarding potential mandatory consolidation. At this time, the LPA may want to consider reissuing enforcement to get the school moving towards a solution. 11/7/17 - system is working with state on funding project. 1/31/2017- Updated enforcement was issued. System has new superindendent who is moving forward with treatment system and who will start communication with Grange. 6/27/2016: System has

11/13/2018-Decided on isolux. 5/14/2018-System has hired a consultant to put together a treatment plan. System has determined POU would be too difficult to get 100% participation and communicated with Isolux and gave them current water quality data for Movieline. System is installing pipeline to link wells so only only plant is required. 2/13/18-The letter rejecting the proposed POU was not sent until recently. System has until end of February 2018 to get device approved for pilot. 12/1/2017-System submitted POU device we cannot approve so an updated plan is needed and will be completed by end of year. They will submit the funding application as required, but can't use it for POU. 11/7/17 - system submitted proposal of a POU device for pilot study that cannot be approved so system will be given new

11/13/2018-Working on testing for study-8/13/18-System is resuming pilot test- LPA will do site visit on Friday to review pilot plant and disucss timeline for full scale design and installation. 5/14/2018-pilot test done, but system is looking at consolidation with CAL AM-2/12/18- Proposing well head treatment using an adsorptive media- began pilot study in January - 12/1/2017: LPA spoke with one of the county's assistant CAO's who has been assigned to resolve the

11/13/2018-discovered that system may actually be TNC so working on reclassifying. 8/13/18-Pilot test was sucessful. Meeting with system to finalize approval on proposal. 5/14/2108- pilot test going and results are good so far-2/12/18 - Proposing POU program - installed POU and began pilot test - 12/1/2017: We have good progress! They have now asked their operator, MCSI, to take over the process and implement a POU program and have submitted a timeline.

11/13/2018- Going through pilot study/testing. 8/13/18-Sytem chose Isolux for POU and installing this week. 5/14/2018- system was not able to get adequate information from vendor and needs to submit updated proposal- may need updated enforcement-2/12/18 - System submitted POU proposal - needs a few more details before approval of pilot study- expect to get information this week - 12/1/2017:LPA has reached out to them several times, but they have done nothing so we will issue a citation with time charged for failure to comply with directives of compliance order. 11/8/17- did not get updated information-enforcement pending. 6/27/2016: They are deciding between installing a new treatment plant or purchasing water from Washington School (next door and prefered option). Washington School is stalling on implementing treatment so updated enforcement is pending. 6/27/2016: They are deciding

1/7/2015 Planning Application Submitted.	Agreement Number: D16-02012, Project Number: 3301380-001P, 7/1/2015 Application Deemed Complete. 8/31/2016 Draft Planning Funding Agreement sent to system.

	Treatment
	Consolidation

10/22/2018: Plans and specifications for arsenic treatment system complete and under review by DDW staff. Construction Application submitted to DFA. 7/1/2018 - No change in status. 4/1/2018 - No change in status. 1/23/2018 - **Compliance Order 01-02-16R-002-A1 was issued amending the original order. Requires final plans and specs be submitted to the District Office by July 1, 2018. Also requires the system to come into compliance with the arsenic standard by August 1, 2019.** 11/1/2017 - DDW staff met with PECSD staff and the engineer during negotiations for the location of the treatment plant building. DFA finally approved loan funding for the planning project. The engineer and PECSD agreed on the location of the treatment plant building on a lot adjacent to the Fire Hall owned by the District, and design is 50% complete. Environmental work is currently being performed and discussions with the County to established correct zoning is underway. Arsenic RAA at the compliance sampling point has been just under the MCL during both 2Q2017 and 3Q2017. 8/1/2017 - Alternatives analysis indicated placement of the treatment system in an existing building or on an adjacent lot that must be purchased. Decision will be made in August 2017. DDW staff met with PECSD twice, once at a board meeting to address the alternatives analysis and the other to meet with the USFS to determine if simply changing the tank location to a site closer to the community and placing the treatment plant aside the tank would be feasible. The extra cost of the new tank and removal of the old tank, and the additional 1-1.5 years of time required to revise the Special Use Permit, eliminated this alternative from consideration. CA DFA funding agreement has not been issued and PECSD will not contract the engineering consultant until funds are available. Planning funds are expected to be available soon, but no schedule has been proposed by DFA. 5/1/2017 - Final pilot study results indicated the iron is colloidal in nature and the engineer proposed a waiver for complying with the iron SMCL. Plumas Eureka CSD and the engineer requested a meeting the week of 5/1/2017 to discuss the potential for the waiver or additional treatment requirements. Discussions are continuing with the county to alter zoning of a potential treatment plant site. 3/1/2017 - Plumas Eureka CSD found during the pilot study that arsenic can be removed to below the MCL by coagulation/filtration; however, the iron concentration remained over the secondary limits. Redding DDW authorized additional bench-scale testing to refine the treatment design. The owners of the intended property has not granted expansion of the site, but has offered a separate property to house the treatment plant. PECSD has submitted a schedule for completion of the design for November 2017, and both DFA and DDW representatives have approved the schedule. 11/1/2016 - Plumas Eureka CSD submitted a feasibility study for the planning loan project on October 28, 2016 that is currently under DDW review.

10/30/18: No status change from previous update. LPA to update Compliance Order within weeks. Currently being reviewed by County Counsel. 7/23/18: The LPA is going to update the Compliance Order within the next 60 days. Due to the planned extension of Coachella Valley Water District (CVWD) water lines to St. Anthony, the Compliance Order will direct them to consolidate with CVWD. We are working with our DE and State funding. 4/30/18: No status change from previous update. 1/29/18: No status change from previous update. County Counsel is still pursuing receivership option. 10/25/17: No status change from previous update. 7/31/17: Updated/New Compliance Order issued July 11, 2017. RTC date in Order is 5/2/18. 6/26/17 Update: St. Anthony currently has approved interim treatment (Skid Mounted Nimbus CIV 6000 RO system). Riverside County has petitioned the court to enforce the Stipulation for Settlement and grant the order for entry of permanent Injunction and appointment of receiver for failure to bring the park into compliance (unpermitted mobile home park). Settlement Agreement gives compliance date to complete construction of park and install centralized treatment by 5/2/18. LPA will issue updated Citation and Compliance order within the next 30 days and will include a RTC date. : 4/26/17 State Water Board received preliminary engineering report from St. Anthony's on 3/31/17 to remedy arsenic MCL. State is reviewing. 4/26/2017: State Water Board received preliminary engineering report from St. Anthony's on 3/31/17 to remedy arsenic MCL. State is reviewing. 1/12/17: No status change from previous update. 4/18/16: No status change from previous update. 11/24/2015-Saint Anthony submitted application at end of Oct 2015 for planning funding. Still has an assistance referral for TMF due in January. Owner has obtained a conditional use permit through Riverside County.

<p>10/30/18: No status change from previous update. 7/23/18: Still on track to consolidate with CVWD. Calls and emails with State funding indicate aim to establish eligible start date and initial agreement in place before end of 2018. CVWD would like to complete construction by end of FY 2018-2019. 4/30/18: Recent conference calls indicate consolidation with CVWD should be completed by or around 7/1/18. 1/29/18: No status change from previous updates. 10/25/17: Conference call with CVWD and DDW indicated consolidation should be completed by 7/1/18. 7/31/17: No status change from previous update. 4/26/17: CVWD took over the consolidation application from CRWA. Funding status unknown. 1/12/17: No status change from previous update. 10/25/16: FFAST application has been submitted. Still needs to be reviewed by State. 7/21/16: Water system has contacted CVWD</p>
<p>11/14/18- No updates 7/23/18- No updates. 4/27/18 - No updates. 1/30/18- Water system has switched to using back-up well as main source and is on quarterly monitoring. 10/30/17- No updates. 7/28/17- water system is using secondary well. Second quarter sample was 4 ppb. Will maintain quarterly monitoring on both wells. Will evaluate if using the backup well is sufficient long-term solution. 6/23/2017: Water system has disconnected from their main well and connected their secondary well to their distribution system. This construction was completed in October 2016. An arsenic sample will be pulled for the secondary well no later than June 30, 2017 to verify compliance with arsenic rule. 5/1/17- No Changes 1/19/17: water system has contacted both contractors about treatment options and also</p>
<p>11/14/18- Water system is out of compliance based on ARA. Will send out compliance order. 7/23/18- system remains on quarterly monitoring 4/27/18- water system remains on quarterly monitoring. 1/31/18- Water system is still under RAA for MCL but will remain on quarterly monitoring. 10/30/17- They have been under the MCL RAA for for some time, but they didn't take their 2nd and 3rd quarter sample due to a change of ownership. 4th quarter sample was requested to be taken to the lab by the LPA. 7/28/17- Changed owners. LPA trying to contact new owners; bacti sampling is overdue. 5/1/17- RAA is under the MCL. Will continue on quarterly monitoring. 12/29/2016-Data needs to be cleaned up in SDWIS to reflect current status. SOX may be deleted and violations may be reassocated with old compliance order. LPA will reassess on whether this system has RTC. 11/30/2015-LPA was planning on revising</p>
<p>11/14/18- Water system is sworking with a consultant for variance waiver. Still under Environmental Review with DFA. 7/23/18- system met with LPA, SWRCB, DFA, and SCWA in regards to the consolidation process. Water system is still working towards consolidation. Waiting on draft wholesale agreement from SCWA 4/27/18- No updates 1/30/18- Water system is currently in environmental review phase. Please review DFA project AR# 5619. 10/30/17- For the inquiry of whether the water system received estimates and approval from larger utility to connect, please contact Pete Stamas with DFA as they are under environmental review. They have not entered into a contract with a larger utility but that is the plan. 7/28/17- No updates 6/23/2017: Currently going through environmental review processes. Reference SRF3400138-001 P with DFA. 5/1/17- no updates. 1/19/17: water system is currently awaiting a connection estimate and dates from larger utility. 9/6/2016: Water System is going to spend the rest of their grant money on</p>
<p>11/14/18- Polisher tanks are still online. ARA is trending down. 7/23/18- water system put polisher tanks online. April and June arsenic samples were ND. ARA is tranding downward but still exceeds the MCL. 4/27/18- O&M accepted by LPA. Awaiting poliher tanks to be installed. 1/30/18- O&M plan submitted. LPA to have conference with Mike Tolin & Ops Cert staff in regards to O&M plan approval. 11/28/2017- LPA is currently working with Mike Tolin about the review of their O&M plan and Start-up plan as they have finished construction of their treatment plant 10/30/17- water system has an appoved engineering report from LPA in conjuncation with SWRCB DE. Construction is to begin late 2017. 7/28/17- New compliance order issued 6/14/17. water system is still working with engineer on plant design. 5/1/17- water system is working with engineer to determine the issues of their current treatment plant. 1/18/17:</p>

EPA recommends a compliance order with a deadline in alignment with funding agreement deadline.	
Has the LPA made a permit amendment to formalize the change in primary wells? Has this system returned to compliance?

11/14/18- No updates. 7/23/18- water system is in design phase for treatment plant and working on securing private funding for plant. 4/27/18- No updates. 1/30/18- Water system still in beginning of construction phase. 10/30/17- LPA in conjunction with SWRCB DE approved engineering plan. Construction is scheduled to be end of year 2017. 7/28/17- water system submitted treatment plant proposal for review. Plan is under review by LPA in conjunction with SWRCB engineer. 5/1/17- water system drilled new well and screened off aquifers to get lowest arsenic. system is currently running bench top tests. 1/19/17: water system is currently screening aquifers at new well to determine arsenic levels. 6/9/2016: New well was dug May 2016. Arsenic has not been tested for since well was dug. 12/23/2015-LPA states that the water system will be receiving a revised compliance order by the end of the year. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Well #3 is no longer on line 3/15/2016 Water system has submitted application to drill a new well and conduct a pilot study on new well to determine which treatment system will be installed. Well construction permit issued 2/18/16

11/14/18- No updates 7/23/18- water system has met with engineer and consultant in regards to treatment plant design. 4/27/18- LPA is working with Consolidation specialist and water system about conference call for possible engineers for treatment. 1/30/18- Water system just signed contract with PE. Awaiting proposal for treatment options. 10/30/17- Owner is currently working on getting engineer to evaluate different treatment options for the system. 7/28/17- RAA for new well is 13 ppb. New compliance order issued 7/6/17. 6/23/2017: Received 4th quarter samples. Will issue compliance order for MCL violation for arsenic for the new source. 5/1/17- new well is placed online. 3 calendar quarters have been tested since it was put online. RAA over the last 3 quarters is 13 ppb. 1/19/17: Water system has placed new well online. Last 2 quarter samples are 13 ug/L. 6/9/2016: Water system is still currently

10/26/2018: WS hired new contract operator/eng. consultant to evaluate issues (arsenic, GWUDI well, DBPs, Fe/Mn) and identify course of action. DDW will be meeting with system and new consultant in Nov. 2018 to discuss path forward. 8/8/2018: WS met with District to discuss multiple complex issues (GWUDI well, THMs) in addition to the arsenic. WS is interviewing consultants to develop a comprehensive solution to all of these issues. 3/30/2018: Water systems continues to evaluate options to RTC with arsenic MCL, in conjunction with addressing other violations of primary MCLs. 1/30/2018: WS is evaluating a new media in manganese removal plant to see if it can be optimized

11.13.18 No update, water system is waiting for consolidation funding. 8.10.18 Prop 1 consolidation application is under DFA review. 5/2/18 - Undergoing consolidation consideration with Hi Desert Water Company and Golden State Water Company by DFA 2/9/18 - DFA Review. 7/29/17 - EA issued, system is waiting on DFA financial assistance. 6/29/17 - LPA is waiting on DFA update prior to issuing a citation. 5/4/17- FA incoming target June 2017 2/1/2017- No updates from the water system has been received, LPA is working on issuing a citation without fine. 6/24/2016: The system has been in talks with neighboring water system to consolidate however no formal plans have been submitted. The LPA will send out an amended CO and give them 3 years to comply. 5/12/2016-the water system is working with

11.13.18 Water system is waiting on Regional Board to review mass balance study and RO discharge requirements before moving forward. 8.10.18 System submitted a request to extend RTC date to 3/31/19 to comply with RWQCB discharge requirements, LPA amended citation and extended RTC date to 3/19/19. 5/2/18 - WS is considering consolidation with Daggett CSD, Plan B is initial RO treatment which is dependent on RWQCB's approval of effluent disposal plan. 2/9/18 - CAP submitted 08/8/17. Initial installation anticipated 8/1/18 and completion anticipated 6/26/18. 11/7/17 - Operator submitted corrective action plan proposing a RO system. 6/29/17 - LPA issued a citation on 4/14/17 with comply by date of 6/30/18, WD sent letter of intent to comply on 6/22/17. 2/1/2017 - No further updates has been received, LPA is working on issuing a citation without penalty. 6/24/2016: Formal plans for the

11.13.18 Construction is completed, operator is waiting for AdEdge to load media and test, and plan to go live by the end of December. 8.10.18 Treatment system is still under construction and verified during last sanitary survey. 5/2/18 - Treatment system estimated completion date is 6/30/18, WS waiting on Edison to bring power to structure housing treatment skid. 2/9/18: treatment system is expected to be installed by the Summer 2018. 11/7/17 - Water system is in construction phase and currently building treatment system housing. Construction will be completed by 12/17 but system may not be online until pipeline connecting treatment system to distribution is completed and water quality samples are obtained. Operator's goal is to bring the treatment system online by the end of the year.. 6/29/17 - system is waiting on grading permit to start construction. 5/4/17- system is in the process of installing treatment system

11.13.18 Water system is planning to fund construction and seek reimbursement from SWRCB. 8.10.18 Technical and Environmental documents under review 5/2/18 - Credit review is on hold pending completion of environmental reviews. 2/9/18: No status change since previous update. 11/7/17 - EPA is currently overseeing enforcement. 6/29/17 - EPA is the enforcing agency, LPA hasn't received any information beyond an extension has been issued. 5/4/17- EPA approved an extension 2/1/17: WS submitted TMF Documents in December 2016. 6/24/2016: Had a meeting on 6/22 with water system to discuss compliance plan. The water system is to meet with Hi Desert regarding intertie as back up to primary well. 5/9/2016-Design complete for interconnection with High Desert Water District. Awaiting prop 84 construction funds. 5/5/2016: Issued NOV on 3/29/2016 and now are now in negotiations with the county. Fluoride and Uranium were also added as constituents that were above the CA MCLs and were included as information only since the Fed EPA cannot enforce them. 3/8/2016-DDW has requested that EPA issued a compliance order. 2/18/2016-DE followed-up with San Bernardino County Special Districts, who operates the water system, about providing bottled water, and they discussed about applying through FFAST for the interim CAA emergency funds. The CSD have not been directed by the LPA to provide bottled water, so the DE gets the feeling they are hesitant to do so. The DW will keep the

11.13.18 Operator is planning to seek funding for environmental review which will be submitted in 2 weeks per operator. 8.10.18 System applied for prop 1 and SRF funding 5/2/18 - WS is seeking technical assistance and planning to apply for SRF/Prop1 and private funding. 2/9/2018 - Treatment system expected to be installed by summer 2018. Seeking financing with California Department of Water Resources. 11/29/2017- RTC date is 6/30/18 on the most recent EA. 12/31/19 RTC date was pre-populated on the spreadsheet. Project engineer notified that well profiling has been completed and ready to be sent out to manufacturers for design proposal. Project engineer was also looking for low interest loans for the system and will apply through FFAST. 11/7/17 - System submitted CAP. 6/29/17 - LPA issued a citation on 5/24/17 with comply by date of 6/30/18, WS submitted LOI to comply on 6/12/17. 5/4/17 - LPA is working on issuing a Citation 2/1/2017- No updates from the water system has been received, LPA is working on issuing a citation without a fine. 12/29/2016: Knoll's intent to comply letter was received in January 2015 in response to amended CO dated 11/14/14. Knoll didn't send any update since January 2015. A citation was issued on 7/10/15. District Engineer will be assisting LPA with escalated EA. 10/31/2016- Spoke with owner as always she was very eager

N/A	Treatment

11.13.18 Water system proposed a centralized RO system and revising plans after LPA review. 8.10.18 System submitted a technical report for proposed adsorption system and it is under review by LPA 5/2/18 - WS failed to submit plans by 4/25/18 as indicated on the quarterly progress report and currently working on PID. 2/9/2018 - Treatment system expected to be installed by summer 2018. Working with engineer on design plans to ensure existing treatment system will interface with new system. 11/29/2017-System installed a POE for the cafeteria only in the past, most recent CAP proposes ion-exchange but engineering report hasn't been submitted to LPA. 12/31/19 RTC date was pre-populated on the spreadsheet. RTC date is 6/30/18 on the most recent EA.

11/7/17 - System submitted CAP. 6/29/17 - LPA issued a citation on 3/22/17 with comply by date of 6/30/18, WS asked for an extension till 7/31/17 to submit compliance plan. 5/4/17 - WS submitted non approved treatment system plan, plan rejected 2/1/2017: WS plans to install additional POE systems to cover entire campground. 12/29/2016: RAA for RO Effluent = 1.975 µg/L, the System is planning on expanding their RO treatment system for the entire facility. Currently, the treated water is for the coffee shop and dining hall. 9/16/16 - They have determined that because of their bylaws they would not be accepted for funding so have not reapplied. Their comment: "We are working on a plan to expand our RO coverage but it will take time to fund and implement. Currently everyone we provide water for obtains their drinking water from our RO system. We have had a large RO unit donated to our organization which

8/10/18: No status change from previous update and no citation revision. 6/4/2018: The system is using the arsenic removal POU at the kitchen sink. Monthly samples show that post-treatment water is below the MCL. However the system is still in violation of the arsenic violation and is still providing bottled water to students. The school is still providing bottled water to students. 2/1/2018: The water system has been approved to use an installed POU Arsenic Removal at kitchen sink. LPA has not issued revised compliance plan as of yet. The school is receiving technical assistance from Belinda Carroll with CRWA to complete the application, which will include a request for the installation of a POU at the kitchen. The school is working with Brenda Pauli of DFA for a long term solution. 7/27/17: POU funding agreement between DFA and Warner USD has been signed and executed on June 15, 2017. Pilot test installation scheduled for August with final POU permit and conditions by November 2017. Site is currently using bottled water for cooking and students. Only flushable toilets and handwashing sinks are connected to distribution system. The LPA will be amending the existing Citation to incorporate the new project schedule. Defined milestones per the schedule will be incorporated into the Citation to keep the system on path. Per the advice from our DE the LPA is considering issuing a revised Citation with rescindable penalties to keep the system on track. 6/15/17: The execution of the POU agreement between DFA and Warner USD has taken a longer time than anticipated and was hung up in legal review on both ends. On May 2, 2017 Warner USD received draft form of funding agreement from DFA with request for an updated timeline for POU installation. Warner USD provided revised timeline and requested DFA to incorporate that into agreement. A response and revised timeline was provided to the LPA on May 12, 2017 after several requests. The LPA will be amending the existing Citation to incorporate the new project schedule. Defined milestones per the schedule will be incorporated into the Citation to keep the system on path. POU installation is anticipated in September 2017 with a long term solution in 2019 or 2020. Per the advice from our DE the LPA is considering issuing a revised Citation with rescindable penalties to keep the system on track. 01/25/2017 - Per Mark Magtoto of DFA (on 1/18/17), the POU agreement is being reviewed by Daman Badyal and will be sent by the DFA analyst to Andrea Sissons of Warner School when ready. Per Andrea Sissons of Warner School (on 1/18/17) the signed funding agreement and attorney letter for the long term solution were to be forwarded to Brenda Pauli of DFA. 11/4/16 - Agreement No. D16-02007 was issued on 9/28/16 to Warner School from DFA for the permanent solution and included the transmittal Letter, Funding Agreement/Exhibits, signature pages and Draft copy of the General Counsel Legal Opinion Letter. The School Board approved the package and currently the legal general opinion form is being completed by School attorneys. The Clean-

8/10/2018: System just completed initial testing studies for filtration and is working on a proposal 6/4/2018: System is currently researching treatment options from two different vendors 2/1/2018: Water system has decided to self fund an arsenic treatment plant, and no longer seeks to move any further with the option of blending. Water system also found that it is Aresenc(V) in the drinking water with a no detect for Aresenic(III). 7/27/17: Comments sent back to system to revise arsenic blending spreadsheet. System is currently reviewing comments and working with an engineer to address issues both the LPA and SWRCB had in regards to their plan. Email sent to system to request timeline for resubmittal. 6/15/17: A request to extend the deadline to submit the arsenic reduction plan was received and granted by the LPA so the system could evaluate what options they had. The system has been in communication with the LPA and are actively seeking to resolve the problem. On May 11, 2017 a proposed blending plan spreadsheet was submitted to the LPA for review. The LPA sent to the District to provide review and concurrence. Comments received

10/30/2018: State Water Boards contacted City of Stockton Mayor to inform him of funding available for the project. No status change from previous update. 8/20/2018 No status change from previous update. Victor Lopez is now Project Manager for the construction application. 2/6/2018 The Water Board DFA have requested technical assistance to help finish up the plans and specifications for the project, The CA Department of General Services is willing to fund for the development of the environmental documents, but DFA would need the City's approval to develop these documents on their behalf. The technical assistance program is also willing provide the City with assistance to finish developing the rest of the plans and specification. As soon as DFA obtains the City's approval, the project will start moving forward (according the DFA). 12/1/2017: Compliance Order was issued on 11/28/2017. 10/25/2017 -Emailed update from Tatiana with Water Board DDW division of financial assistance, she is working with the consolidation coordinator. DDW sent out letters to the individual home owners within Sunny Road to see if any of the home owners would be interested in being part of the consolidation project with Century Mobile Home Park and Silvia Avalos. So far responses from 4 individual wells owners that would be interested in being part of this project. 7/10/2017: Meeting was held on 6/8/17 between CA DDW and City of Stockton to reinstate funding application

10/29/2018: MUSD has approved and executed agreement with City of Manteca. Notice of Determination has been filed by City. 8/20/2018 Authorizing Resolution was provided to the City on 5/31/2018. Plans, specifications, engineering and environmental documents received. Application packages pending. 2/6/2018 the construction/funding application is to be submitted this coming March to pursue connection to city. 12/1/2017: Compliance Order was issued on 11/28/2017. 10/26/2017 - Email response from Gary Chan with the WB DDW Financial Assistance indicated that the technical assistance provider just finalized the work plan and will begin preparing the funding application for the School. It is anticipated that more progress in the upcoming months when the application is finalized. 7/10/2017: During the week of June 12, 2017 a meeting was held between CA DDW and City of Manteca to move forward on the consolidation project. Gary Chan w/ DDW Financial Assistance Division to meet with Kathleen Firstenberg with the Water Resources Institute on July 11, 2017 to coordinate the funding for the consolidation project. Water system is using bulk hauled water as an interim measure. 4/28/2017: No status change from previous update. 6/13/2016, This is a State funded project and CRWA is working with the water system and San Joaquin County LPA is unaware of the status. 2/22/2016: Reid Johnson of Nolte Vertical 5 is the consultant working on this project. This is a

10/22/2018- System is in the process of adding treatment system and amending permit to include treatment. 8/20/2018 -System has decided on treatment as corrective measure. Anticipated compliance date unknown.

EPA recommends a revised compliance order to ensure the system keeps moving forward.

10/29/2018: State Water Board contacted City of Stockton mayor to inform that funding is available for the project. Documentation, plans, and specifications for consolidation are pending City's agreement for the project. 8/20/2018 General Application has been completed, and technical assistance staff is preparing LAFCO and CEQA documentation. 2/6/2018 The Water Board DFA have requested technical assistance to help finish up the plans and specifications for the project, DGS is willing to fund for the development of the environmental documents, but DFA would need the City's approval to develop these documents on their behalf. The technical assistance program is also willing provide the City with assistance to finish developing the rest of the plans and specification. As soon as we get the City's approval we can start moving forward with the project. 12/1/2017: Compliance Order was issued on 11/28/2017. 10/25/2017 - Emailed update from Tatiana with Water Board DDW division of Financial Assistance, she is working with the consolidation coordinator. DDW sent out letters to the individual home owners within Sunny Road to see if any of the home owners would be interested in being part of the consolidation project with Century Mobile Home Park and Silvia Avalos. So far responses from 4 individual wells owners that would be interested in being part of this project. 7/10/2017: Meeting was held on 6/8/17 between CA DDW and City of Stockton to reinstate funding application

10/29/2018: Plans were finalized and all preliminary submittals were completed. As per Brett Dahler with California Water Service Co., the water main has been approximately fifty percent installed by the contractor. He anticipates water to the site by Thanksgiving. 8/20/2018 California Water Service Co. identified different tie-in location for project, reducing amount of re-paving required. Modified plans were drafted. 2/7/2018: Construction was not started, the water supply pipeline construction permits were re-submitted to the City of Stockton, San Joaquin County Public Works and Caltrans within the past two weeks. Issuance of permits are pending. Once permits are issued the construction for the pipe installation shall begin. 12/1/2017: Compliance Order was issued on 11/28/2017. 10/24/2017 - Email response from the contractor and Cal Water - Cal Water has just completed the revised drawings for the water line. The contractor will pick them up later this week for submittal, Cal Water has re-applied to the State and the County for Encroachments permits. Contractor is expecting to have permits in 30 -45 days and start construction. "Finally something will get started soon". 7/10/2017: 6-15-17 Meeting with Cal Water to work out the details for revised plans for connection. Permits applications to be obtained from the City of Stockton, San Joaquin County Public Works, and Caltrans to move forward on the consolidation project. Cal Water estimates installation of water main still several months out. 4/28/2017: No status change from previous update. 6/13/2016, Contractor has submitted the second round of corrections to San Joaquin County Public Work Department pending for approval to install a 12" Water main extension. If not finished by the end of this year, A new order will be issued with a new RTC

10/29/2018: Viability of treatment and new source discussed. It was determined that treatment is an unsustainable option, given plans for future growth. Plans for investigating potential new source. 8/20/2018 System investigating potential treatment as well as feasibility of installing a new groundwater source. System will be reconvening to come to a decision about the corrective measure they will be choosing, and have discussed rough budgetary figures.

11/8/2018 System has installed all but three of the POU systems and has completed initial testing. All units have come back "ND." The last three systems are expected to be installed by the end of the year. **8/6/18** System has completed all of their program documents and they have been approved by this office and the District Office. They are in the process of installing and doing the initial testing on the POUs. They also have 1 homeowner who is refusing to participate. Technically, I'm not sure they can return to compliance without that last homeowner. Their compliance deadline was July 31, 2018, so they have not met the deadline, although they are very close. **2/14/18** The system has completed initial testing (successfully) and is in the process of completing their compliance program documents and scheduling their public hearing. **10/26/2017:** System is currently undergoing monthly POU testing. **6/19/2017:** The POU proposal was reviewed by DDW and comments were given to SLO LPA on 6/12/2017. **2/17/17 - At annual shareholders meeting members vote to proceed with POU solution. Proposal received by San Luis Obispo County EHS. Forwarded to DDW DE in April 2017 for review. 2/17 - Bids in, board meeting tonight to weigh POU options, proposal to be drafted after vote. 10/31/16 - System Drafting Proposal which includes a lease and maintenance contract for POU units, pilot study to be included as part of proposal 5/4/2016-DE received a call from a water system representative saying they are**

11/8/18 System is still in process of moving forward with POU treatment. 8/6/18 System has had a public meeting. Members at the public meeting voted to move forward with POU and are providing information to those who were unable to attend to the meeting. We have seen recent spikes in arsenic all over our County in the last year. One guess could be the 2016/2017 rain season, which was above average rainfall preceded by a multi-year drought. In addition to small water systems, our department also reviews private well data through our well and land use programs, and the

11/8/18 The school has put the arsenic removal treatment system construction out to bid. Once a contractor has been selected, construction will begin. **8/6/18** The new well has been completed and test results came back still over the MCL. The school is working with DFA and a consultant to finalize the project bid for the centralized treatment system. We expect the bid to go out in the next couple of weeks. **2/14/18: The driller has begun drilling the new well.**

12/1/2017: we were trying to reach out to various parties to confirm the status of the project as we understand it. In order to receive funding, the school was required to drill another well to see if they could get better quality water. I just got off the phone with the well driller and they are submitting their well permit application this week and intend to start drilling over the holiday. Due to this location being a school, their construction window is limited to holiday breaks as it is not appropriate to have children near an active drill site. In addition, the school also happens to be in an impacted groundwater basin, the Paso Robles Ground Water Basin, so there are additional drilling restrictions/requirements set forth by the County. The school and driller have to work with a geologist in order to get their permit application approved. This well will need to be drilled over 800 feet deep to reach water - it's not a simple or cheap well to drill. They will have to first drill a conductor casing and there are also multiple aquifers at that depth, so it gets a bit complicated. Therefore, it is our position that the school is actively complying with the current Compliance Order. While we certainly can understand the recommendation to revise the Compliance Order to impose a construction completion date, we do not think it is necessary at this time, nor do we think the school

10/23/2018: They should be RTC in Q1 2019.

7/23/2018: No change.

5/2/2018: Permitted and should RTC in Q1 2019.

2/5/2018: No change in status from previous update. Arsenic levels post-POU see 4900575-105 and 4900575-107 for data. 11/3/2017: Permit issued on 9/15/2017.

8/1/2017: No change in status from previous update.

6/15/17: Permit to be issued August 2017. No need to reissue CO. 5/2/17: POU Permit app nearly complete, pilot study in progress, site visit scheduled for 5/17/2017, permit should be issued by end of Q2 or early Q3

1/17/17: POU permit in process, working with system to finalize application. A site visit will be scheduled this quarter.

1/12/17: The POU permit was issued 9/15/17. They were supposed to begin the POU sampling in October but, due to fires and did not begin the monthly sampling and reporting until November. So, they do not have a full quarter of compliance yet, the results from the POU units sampled in November and December are not in WQI yet but the system has requested the lab submit the results. They will have one year of sampling and reporting on the POU units on 11/1/2018.

10/26/2016: POU permit application has been reviewed, waiting for system to submit additional and updated documents to complete the application.

7/25/16: Water system has submitted permit application to add POU treatment. Application is in process of being reviewed.

6/16/2016: Water system is not on track with CO. New projected RTC date is July 1, 2017. 4/20/16- The system continues to work on the permit checklist items and follow the directives of the CO. 1/11/2016 - Sent a permit checklist

10/31/18 - No progress to report. 2/13/18: When considering POU process and the associate funding process it is likely to take as long as the project consolidation timeline. 7/3/2017: The District Waterboards office indicates that a separate funding project is being submitted for the consolidation of Coble's Corner water system and Country Villa water system. A revised compliance order with appropriate milestone will be issued in accordance to this process.

5/23/17 - No change. 1/13/17 - Kickoff call being schedule for recently approved assistance request. 11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time?

No current comment.	
EPA recommends issuing a revised compliance order with a deadline based on the funding agreement deadlines for treatment plant construction.	
No current comment.	
<p>Did the LPA issue a penalty as tentatively discussed on 9/6/2018 call?</p> <p>Please update the enforcement columns with details from the enforcement action issued in March 2018.</p>

Funding agreement for entire project (treatment system & consolidation) was executed on 2/17/17.	Overall total project cost (including construction of an arsenic treatment system, and the consolidation of Mobile Plaza Park, Green Run Mobile Estates, Countryside MH Estates, and Faith Home Teen Ranch) is \$18.8M.

12/1/2018	Consolidation

	Consolidation

<p>10/31/18 - Consolidation project went out to bid in September. 2/13/18 The Keyes consolidation efforts are anticipated being RTC in 2019. 7/3/2017: A new compliance order with milestone in accordance to this project will be issued. 5/23/17 - No Change waiting for Keyes consolidation. 1/13/17 - No Change. 11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. 11/2/2015- * Formal compliance plan has not been submitted to this department, but this water system is a candidate a large</p>
<p>10/31/18 - Voluntary consolidation into the city of Ceres is being negotiated. Manditory consolidation procedures have been implemented also. 2/13/18 No changes 8/10/17 No additional updates at this time. 06/12/2017 - Michelle Fredrick (DDW) has been working with Ceres West MHP. We are having trouble getting the City to allow consolidation. She has reached out to them several times to discuss consolidation potential an trying to get them to do a meeting with DDW but they are not interested. They are having a City Council meeting on July 10th and a discussion on the project is set to be at presented at that time. At present, the school just north of them has an intertie to the City. However, apparently the City was very upset with the fact the school was situated there and while it allowed the connection, the school actually owns the pipeline because the City refused to be responsible for it. Right now, Ceres Wests engineer's cost estimate shows that arsenic treatment is more cost-effective, but DDW is trying to take a second look at the costs to see if they have included everything it takes to be a PWS. Also, they have used proposed water rates provided by the City, not current water rates (which have not gone through a Prop 218 process yet) which we disagree with. This is a big difference, because they City is proposing that they should just do arsenic treatment due to costs. 5/23/17 - City of Ceres continues to reject the water system proposal for consolidation. Michelle Fredericks with DFA will be scheduling a meeting for all parties in the near future. 1/13/17 - After rejecting the request for consolidation, the city of Ceres offered to review the water system's engineering report for the request to consolidate.</p>
<p>10/31/18 - Consolidation project went out to bid in September. 2/13/18 No changes 7/3/2017: This is the same project as Mobile Plaza, Faith Home and Countryside MHP. An new compliance order with milestone in accordance to this project will be issued. 1/13/17 - No Change. 11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. 11/2/2015-* Formal compliance plan has not</p>
<p>10/31/18 - Consolidation project went out to bid in September. 2/13/18 No changes 8/10/17 - New compliance order issued. 5/23/14 - Owner has been advised that a new compliance order will be issued as the system waits for consolidation. 1/13/17 - No Change. 11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. 11/2/2015-* Formal compliance plan has not been</p>
<p>10/31/18 - No progress to report. 2/13/18 No changes 7/3/2017: District Waterboards office indicates that a separate funding project is being submitted for the consolidation of Coble's Corner water system and Country Villa water system. A revised compliance order with appropriate milestone will be issued in accordance to this process. 5/23/17 - No change, owner is not responding to requests regarding her distribution operator license. 1/13/17 - Kickoff call being schedule for recently approved assistance request. 11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and</p>
<p>10/31/18 - No progress to report. 2/13/18 Water system is now under compliance order DER-17CO-007 issued 12/15/17 for nitrate MCL. Request for a follow-up meeting regarding Duarte. POU does not seem like a good fit as the water system has two contaminants that need address and no permanent solution has been presented at this time. 7/6/2017: No, the water system will again be in violation of the arsenic MCL during the second quarter of 2017. Previously (2015), this LPA requested EPA and DDW assistance with enforcement. 5/23/17 - No change. 1/13/16 - A testhole for a new source was drilled in 4th Qtr 2016. Initial water quality testing indicates that there are no viable aquafiers. The system is now consulting with their distribution operator and engineer for the next plan. 6/16/16 - The</p>

1/1/2020	Treatment
	Treatment

10/31/18 - Water system was pursuing consolidation into Keyes water system, but the LAFCO has halted this process. 2/13/18 No changes. Bottled water being provided. 11/27/2017: Clementine Properties is currently serving water that does not comply with the arsenic MCL. Results from April 3, 2017 were thrown out as it was report as a ND and resampling on April 11, 2017 indicated an 11 ug/L for arsenic. Therefore, the water system's current RAA is 10.75 or 11. The water system has received a will serve letter from Keyes CSD. Clementine's last progress report indicates that they are taking steps to be ready for this consolidation as soon as it is available (June, 2018). LPA is not sure if they provide bottled water or not. 7/3/2017: District Waterboards office indicates that a separate funding project is being submitted for the consolidation of Coble's Corner water system and Country Villa water system. A revised compliance

10/31/18 - Keyes consolidation project went out to bid in September. This water system plans to consolidate. 2/13/18 Treatment plans revised again (1/12/18) comments have been sent back to engineer. Pending engineers response to comments from the December plan revision, equipment has been purchased and ready to be installed. Equipment is waiting for approval to install. It is possible that further extension will not be necessary. 8/10/17 No additional updates at this time. 5/23/17 - Arsenic treatment Plant Technical report revised and system has purchased equipment for installation. 1/13/17 - No Change. 4/22/16 - Water system has secured a civil engineer with water experience and is developing an application for installation of a treatment plant. 1/19/16 - Office Hearing conducted on 1/19/16 for

10/24/2018: The bids are being accepted for the construction of the treatment plant. Three bids have been received so far. The City plans to award the project to the winning bidder this month. 7/20/2018: The agreement between the State and the City is being updated. The construction is expected to start this summer. The Sate has already sent a new compliance order to the City and has extended the deadline to July 2021 for meeting compliance with the arsenic MCL. 4/30/18: The City is in the process of finalizing the environmental (CEQA) process for the new proposed site. Construction is expected to begin some time this year. We plan to issue a new complinace order in June 2018. 01/16/18: The City has revisited the project documentation to address environmental compliance. One proposed change in the project was to create more room for well drilling at the Well 5 site. The existing site has development on all sides, which will add costs to construction due to tight working conditions. The existing site was originally created from a larger 22 acre parcel, currently owned by a manufacturing company. Both the City and manufacturing company agree that the well site be moved to a different location on the same 22 acre parcel. This modification benefits both parties, allowing improved access for the manufacturing company, and additional room for staging during new well construction. The legal documents for the land "swap" are currently being reviewed by both parties. An amendment to the project environmental document was prepared, reflecting the site change, and will be presented to the City Council for adoption. The current compliance order will expire in July 2018. We'll issue another compliance order in June 2018 before the previous compliance order expires. 11/27/2017- it is anticipated that construction may conclude in early 2019. 07/27/17 - construction is expected to begin in Fall 2017. 04/25/17 - The City of Hughson's Funding Agreement No. D16-02057 was executed on April 25, 2017. 12/8/16- FA will be issued by 1/1/17, Consolidation project no longer included but agreement will be issued separately. 4/18/2016-No status change from previous update. DFA Project Officer - Joel Greathouse

10/24/2018 project is in costruction 07/20/2018 - project is in construction. 4/30/2018: Construciton of all phases has began. 10/25/2017: Construction Contracts Awarded. Estimated completion June 2019. 6/15/2017: Project is almost ready to go into construction. Estimated completion is by June 2019. 5/1/2017-Working with DFA, funding agreement executed 4/18/2016-No status change from previous update. 11/5/2015-per DFA Project Manager - Marques the construction FA may get issued early 2016. 9/22/15 - ERU is finishing up review. Need to finalize the scope of the project for the consolidation part of the project. Projected funding agreement will be issued in approximately 2 months. Construction scheduled to take 2 years. Still need to finalize the design of the consolidation elements. Meeting with the three systems on 9/28/2015 to get update on status and work on the water service agreements for the consolidations.

What are the next steps?

	Consolidation

11/1/2018 - CRWA & DDW amended the work plan for this project to put more focus on well design, transmission line design, and arsenic treatment improvements. 7/20/2018 - RO POU pilot study for arsenic treatment close to starting. Also, DFA, DDW, CRWA, and Sutter Co. met to discuss revising the current work plan to take necessary steps for acquiring water from the Del Monte area. 5/30/2018 - County is performing pilot testing for arsenic treatment with several different POU devices. They continue to provide progress reports on a regular basis. **10/27/2017** - County continues to provide progress reports and is currently receiving technical assistance from CRWA to complete the planning work for the project. **8/15/2017** - Progress reports continue to be submitted. DFA is still waiting for financial package to be submitted in order to execute funding agreement. **6/19/2017:** Biweekly meetings between DDW and the county are not currently taking place. Next step for the path to compliance is that is assigned to Prop 1 TA Draft plan (GANTT chart) is due by Sept 15, which is not enforceable, after which a revised compliance order for deadline to submit funding application will be issued along with a revised compliance order for RTC. **5/8/2017** - Not much progress since the January update. The WS was warned of future enforcement if they didn't continue to make progress towards compliance. A conference date has been set for today's date to talk about how to proceed. **1/17/2017** - Water system is still working towards meeting compliance order directives by 2018. They are looking to extend directive deadlines pertaining to funding application submittal and funding acquisition. State will most likely approve extension request because the system is taking action toward compliance. **11/7/2016** - Water system was issued a compliance order in September 2016, ordering the system to meet arsenic and manganese drinking water standards by 12/31/2018. DDW

11/01/2018 - Consulting firm is working on construction bid documents and is expected to be completed soon. 7/20/2018 - Funding Agreement was issued to the school district on 7/2/2018 and waiting to be signed by the school. Once signed, the FA needs to be signed by the Deputy Director. **5/30/2018** - No change, still waiting on funding agreement to be executed. **3/13/2018** - Environmental review has been cleared and funding agreement documents are being prepared and funds allocated, legal and managerial review being performed. Should take about 4 months to get agreement executed. **10/27/2017** - Plans have been finalized for the construction project and environmental review/consultation is underway. **8/15/2017** - No change since last update. **6/19/2017:** System has submitted application for construction funding, there's nothing they can do to expedite the funding process. **5/9/2017** - Construction funding processing has been delayed, due to "per connection" grant cap issues as well as the local tribe getting involved with this project. Best guess for FA execution is September or October according to the DFA. **1/17/2017** - Full FA application was submitted in December 2016 - under DFA review. **11/7/2016** - FFAST application documents are still in the process of being completed. **8/16/2016:** The Valley District recently approved the production

11/01/2018 - Design PS&E is at 90% and waiting for Sutter County and DDW review. 7/20/2018 - Design plans and cost estimate are at about 80%, then when complete, Sutter county will review. 5-30-2018 - Environmental clearance is still pending a few items that need to be submitted from the city. Design/build contract has been awarded to a contractor and design is nearly complete. 10/27/2017/ - The City of Yuba City just sent out RFPs to local design firms for the project design. Deadline for the proposals is 11/10/2017. Survey and design timeline will take about 3-6 months. The ERU may only need partial plans to begin reviewing and complete the environmental package. **8/15/2017** - Yuba City is still drafting plans for submittal with a construction FA application. No application material has been submitted yet. **6/19/2017:** There is no deadline for submitting preliminary design plans. Compliance order RTC set at 5/31/2018. Inquiry with DFA made regarding discrepancy with who is waiting for what in an email from the City on 6/17/2017 that states the following: The City submitted a pre-construction agreement application to the SWRCB in September 2016. The City's project manager, Gurtej, has called on a monthly basis to find out the status of the agreement. We still have not received definitive direction. At this point, we are waiting to see if the pre-construction agreement is going to be approved, or if the City will need to front the costs for the survey and design so that we can proceed with the construction agreement. **5/9/2017** - There has been no word from the City of Yuba City as to whether they have drafted preliminary design plans for the DFA's technical review. The DFA is reaching out to the City again to see where

11/1/2018 - A bid has been awarded and the LMCSD board is working on the contract. 7/20/2018 - Contractor bid documents will be opened on 7/24/2018, then chosen contractor will have 180 to complete project. 6/8/2018. Issued an amended compliance order for Los Molinos CSD. RTC deadline set for March 1, 2021. 5/30/2018 - A Funding Agreement was executed in March 2018 and the engineer is finalizing plans and specs. 10/27/2017 - DFA is waiting for the system's financial information before processing the FA. 8/14/2017 - No changes since last update. 6/19/2017: Inquiry about the project completion timeframes needs to be directed to DFA. 5/8/2017 - The ERU is waiting for an approval/acceptance letter from the NMFS in order to give environmental clearance. The EPA had to help convince the NMFS that the State Water Board is recognized as a Federal Lead Agency. 1/17/2017 - Waiting on DFA to review letter from Fish & Wildlife; still approximately 2 months away from executing a FA. 11/7/2016 - DFA recieved service agreements and financial package from WS. Technical and financial has been signed off. The Environmental Review Unit (ERU) is sending a letter to US Fish & Wildlife (USFWS) requesting comments by 12/7/2016. Once positive confirmation is recieved from USFWS the DFA will draft the funding agreement. 8/16/2016 - Planning Project has been

11/18-Well 5 is completed with no arsenic in initial sampling but problems with air in casing and discoloration. Well is not running in system yet. Well 6 not drilled. Modifying Well 2A and 3A also. 8/18 update - not in compliance yet and will confirm estimated completion at an Office hearing with the system on 8/16/18 regarding the new 1,2,3-TCP CO issued and proposed CAP. 2/18-no update. 12/1/2017: According to Randy Masters, Operator, the construction of Well No. 5 is near completion. Probably within the next month or two. The construction of Well No. 6 has not started yet, but he believes that a test well was already drilled. I will follow-up with Joe Hopkins to get more

11/18-System has Construction FA but rebidding the project as they added a couple items. Need to have system request for exention on RTC date. 8/18-System rebidding (30 days) construction project since DBA was not meet correctly. Contacting system regarding extension which has not been requested and estimate for construction. Will need to amend the deadline construction estimated by DFA for August 2019. 2/18-FA issued and signed - moving foward with construction bid. 12/1/2017: Per DFA the FA is in legal review and will be available in two weeks. 7/17-Arsenic Treatment w/C&F technology. Plans and specs are complete, Prop. 218 passed. The Construction FA is held up do to financial issues with the water system. They have not finished their 2016 audited financials which are

11/2/2018: New compliance order issued for arsenic MCL violation. Waiting for the CAP due by 11/30/2018.

8/1/2018 RAA =10.7 after 3 quarters of initial testing. 5/9/2018 RAA = 18 ug/L after two quarters of initial testing . 2/2/2018 This is a new NTNC system that is undergoing initial T22 Testing. First quarter of testing revealed Arsenic

No current comment.	
No current comment.	
Drinking Water Watch shows no monitoring for arsenic between 2007 and 2018. Is that correct or is DWW missing data? What is the LPA's enforcement strategy?

Arsenic is above MCL in the only active well.
Problem solved
Problem solved
Only well arsenic RAA = 26 µg/L.
Well 06 and Well 07 are in violation of the arsenic MCL, RAA of both wells in 0.014 mg/L
Only well arsenic RAA = 12 µg/L.
Preapplication submitted
SRF application submitted 2008
No SRF application
Applied for SRF for source capacity issues

PLANNING STUDY-APPLICATION DATE SUBMITTED
Each service connection has a POU RO device which reduces the arsenic level to below 10 ug/L
System is non-communicative. LPA has been focusing on bacteriological monitoring violations.
Wrote violation letter. Response by system was to take well out of service and place in standby status.
Coagulation/filtration
Central treatment installed and operating as of May 2008.
Adsorptive media (GFH)
System successfully piloted adsorption media treatment.
Drilling new wells and proposal to provide arsenic.
System is proposing to install treatment.
Treatment installed and being commissioned in place.
OX connected to Cal Water Service 6/09
School closed 6/30/09.
OX System connected to city of Lathrop water 7/09
No decisions presented to CDPH.
PN & qtrly monitoring.
OX System connected to city of Lathrop water 10/09

Problem solved
Invited to apply for Prop 84
SRF application submitted 2008
SRF application submitted 2008
Well 01 is in violation of the arsenic MCL, RAA 0.028 mg/L
Well 01 is in violation of the arsenic MCL, RAA 0.027mg/L. Well 02 on quarterly monitoring & has not yet failed the MCL (avg. samples = 0.014 mg/L.)
Privately owned NTNC.
System did not update its SRF application.
Privately owned Comm system.
Only well arsenic RAA = 15 µg/L.

Coagulation/filtration
Tier 2 notifications
Approved engineered treatment plant installed in 6/11. Did Pub Notification & provided bottled water.
Arsenic treatment installed. Arsenic sample taken post treatment on 7/12/2011 is ND. Treatment has been online since 6/17/2011.
System is connected to city of Stockton in 6/11. Did Pub Notification & provided bottle water
foreclosed on, new owner takes over in 10/10. Public Notification. Connected to city water-OX
Proposal to provide POE arsenic removal treatment
Too far away from City of Bakersfield for consolidation
Will need to provide arsenic removal treatment.
Treatment installed and monitoring is in progress. May take several quarters for system to RTC because of RAA.
Arsenic treatment plant installed and operational.
Tier 2 arsenic notifications issued. Owner has approved plans to downsize park and reclassify as a State Small with POU treatment. Construction of new park in progress
PN and AS treatment at 3 GWTP's
Tank slowly refilled with treated water and all sampling since the event have been below MCL. It will take several quarters for RAA to drop below MCL.
PN and quarterly monitoring required. Looking into
System has applied for Prop 84 funds to consolidate
camp currently closed as a result of operational problems; all users moved to Acton Rehabilitation Center

Primary well arsenic level jumped from 4 to 19 ug/L in 11/2008. Treatment on-line 12/23/2010

Not specified	Potable water provided by City of Colusa thru emergency intertie
Not Specified Goal of 12/31/10	
9/30/2010	
12/31/2010	
Not Specified Goal of 12/31/10	

No	Currently receiving water from the City of Colusa.
	No application for funding as no project is required.

No SRF application
Safe Drinking Water State Revolving Fund Project NO 3301755-001. Final plans and specifications for consolidation planning project approved.
Only well arsenic RAA 13 µg/L.
Local funds
No SRF application
P84-In construction to consolidate with CalAm Ambler Park system
Project to provide treatment on SRF-Project Priority List in Category L. (Needs to be changed to Category G.)

[illegible]

Consolidation with City of Colusa
No decision - interim bottled water being provided
Interim treatment has been installed. Consolidation with Coachella Valley Water District Pending. CDPH has reviewed and approved plans, specifications, notice of exemption and agreement documents.
System proposing to install adsorption media treat
Modifying non-complying well
Bottled water permit as temporary measure.
NOV issued w/ cc to CDPH and EPA
The City has not used Well 13 since July 2008 and is considering submitting a request to change the well to emergency standby source status.

9/22/15 - funding agreement issued on 9/10/15. DFA & DDW will be meeting with system to start project. City of Colusa has already annexed the area. The project is to replace the old distribution system and incorporate Del Oro into the City system. This will not happen until the distribution system in is replaced. However, water is bing supplied by Colusa and Del Oro is meeting the Arsenic standard.

7/3/2015 - Waiting for funding agreement.

Waiting for Funding Agreement for Planning study. Consolidation with City of Colusa to occur - planning study for sewer and purchase negotiations between Del Oro & City.

Existing Fe/Mn treatment is removing arsenic. While 3 monthly samples have exceeded MCL, RAA has been below MCL for last 2.5 years. System has submitted an application to have the plant permitted for arsenic removal.

Interim treatment station is providing water that meets arsenic MCL. Consolidation with CVWD pending.

Ran pilot, exhausted media in 1 week, choosing new treatment system.

Well work completed. Initial tests show success.

6/30/2012	11/19/2015-Legal had an issue with their agreement which required a new legal opinion from the City. The issue was cleared up last week. The planning agreement is now on Darrin's desk – his signature will execute the agreement. 11/5/2015-Currently, buying water from the City of Colusa. Consolidated to the City of Colusa with the City in the process of getting a FA for this project. Will not use its sources again and will be incorporated into the City system.	No

Submitting Application for SRF
Drilled new wells, rehabbed wells
Well 02 is in violation of the arsenic MCL, RAA 0.013 mg/L
SRF pre-app filed
Yearly Testing Last test date 03-5-14 = 14.2
No SRF application
Pre-application has not been submitted, but will during the next open enrollment.
Will self-fund a project
Arsenic MCL

None. Just submitted application.
Qtrly PN and sampling required
well head chlorination to convert arsenic III to arsenic V
Considering arsenic removal treatment.
The well has been reconstructed in an attempt to meet the As MCL. However, this was not effective. The water system has been pursuing consolidation with another nearby public water system, but has not yet been successful.
Treatment installed on 16, 22, 23 operational for
SOLUTIONS WERE RESEARCHED, HOWEVER, FUNDING IS UNAVAILABLE. OWNER WILL REMOVE HOMES AND BRING THE POPULATION UNDER 25 BEFORE 12/31/2011.
No decisions presented to DPH, providing bottled w
Treatment plant was installed and operating under pilot program.
Treatment installed
hope RAA stays below MCL
SRF funds have been approved for incorporation with the City of Gridley's water system.

Currently they are blending to reduce arsenic levels with some success. They will need additional planning to address combined uranium and arsenic issues.

NEW VIOLATION ADDED TO LIST ON 07/29/10

original response was to replace ro membranes and adjust treatment facilities; upon speciation of arsenic I well water, solution was quick install well head chlorination -- system has RO and activated alumina treatment

RO treatment installed, RTC entry will be made in SDWIS. System has returned to compliance, RTC in SDWIS

absorptive treatment installed, RTC entry will be made in SDWIS. *System in Compliance and RTC entered in SDWIS*

one sample 3/13/2013 put As RAA over MCL but all results since have been less than MCL

Connection to Gridley is complete. Need final touches to complete project.

Categorized as TNC Yearly Testing Last test date 1-4-14 = 12.3

NOV issued w/ cc to CDPH and EPA; system applied for funding; 2/23/09- Russ Hatch indicated that the system plans to go with an arsenic removal plant; also he said he is aware of the "shovel ready" funding application deadline and will apply; system remains on quarterly public notification; 2/25/10- system submitted application to State for conversion of SRF application for construction funds to planning funds

Consolidation with Lost Hills Utility District

Purchased 2 wells that comply with As MCL.

Fe/Mn plant was modified to include As. Treatment. Q. PON
As. Q. As testing

Blending Successfully. Operation and Maintenance Plan
Reviewed and Approved.

Construction of replacement well.

Arsenic treatment facility.

SYSTEM INSTALLED POE & CRANMER ENGINEERING IS
GETTING BIDS FOR INSTALLATION OF A TREATMENT UNIT.

Wells purchased and online. System eligible to RTC based on 4QRAA. USEPA Administrative Order, so DDW cannot RTC via SDWIS.
Only seasonally use the well with Arsenic MCL exceedance. They blend during this time.
Construction project phased to first drill new well, then will install treatment of well does not meet As MCL.
Treatment plant is installed and operational. RTC will be issued once RAA is below 0.010 mg/L. Water system has been returned to compliance based on an RAA below the MCL.
THIS PACKING PLANT HAS SEEN DECLINING EMPLOYEE #S FOR THE PAST SEVERAL YEARS & HAS CONTACTED YCEH TO INACTIVATE THEIR SYSTEM. IN THE MEAN TIME, THEY ARE STILL MOVING FORWARD WITH RESEARCHING TREATMENT FOR BOTH ARSENIC & RADIOS.

SRF planning loan application was determined to be incomplete over two years ago.
P84 construction funding application received for consolidation with Erskine Creek Water Company. 2/13/15 (JSD): Issue of eligibility of storage tank; storage tank designed is of 200,000 gallons but eligible capacity is 94,400 gallons. DAF issued a letter to ECWC about this; response recd 2/13/15 from ECWC is currently under review by DFA.
Not applicable
Well 1, Well2 and Well 3 exceeds the arsenic MCL
Included in City of Yuba City Regional Prop 84 project. Awarded Prop 84 construction grant on 8/28/2013. Project in progress, expected to complete by 8/29/2016.
5/29/15 (JSD): SRF funding project is on hold due to RTC. Waiting for issuance of SRF Planning project pending adoption of new water rates by the DLCSD board
Has SRF funding commitment;SRF project - NOAA
P84/ GRANT TO DRILL NEW WELL
Privately owned mobile home park.

Water Company wants to install dual plumbed system-one for outside irrigation and one for domestic use with arsenic treatment
Consolidation with Erskine Creek Water Company
Blending treatment - introduction of a surface water source to further blend down the arsenic concentration in the water delivered to the customers.
Quarterly monitoring, public notice
Consolidate to City of Yuba City
Drill a new well and evaluate treatment if the new well is not successful
Qtrly PN and sampling required
Drilled new well, but it exceeds Uranium MCL. Installed AdEdge arsenic treatment plant w/o plan approval. New treatment plant is installed, approved, and operational since April 2014.

[illegible]

2/13/15 (JSD): RTC - using 100% AVEK water since 01/01/12. 5/29/15 (JSD): RTC as of 2/2/2015. (JSD): RTC - using 100% AVEK water since 01/01/12	2/13/15
5/29/15 (JSD): RTC as of 2/2/2015. 2/13/15 (JSD): RTC-Kernvale MWC's well is dry; emergency tie- in with Erskine Creek since 10/17/2013.	
No violation since 1st qtr. 2014. Updated 2/17/2015 - KDC	
Included in City of Yuba City Regional Prop 84 project. Awarded Prop 84 construction grant on 8/28/2013. Project in progress, expected to complete by 8/29/2016. <i>System now inactivated, consolidated to Yuba City</i>	
5/29/15 (JSD): System returned to compliance on 03/05/15 due to being on 100% AVEK water since 2013. 2/13/15 (JSD): Per Jan. 2015 email communication with Natalie from DLCSD, their board has not yet adopted the new water rates. DFA is planning to issue a letter to DLCSD about water rate impact on the SRF funding offer.	
Current treated water running annual average is at 0.003 mg/L.

P84/ PLANNING LOAN
Well 3 exceeds the arsenic MCL
DWSRF/ PLANNING
Using its own funds, Pinon Valley Water Company has installed arsenic removal treatment. Permit for the treatment was issued in January 2015.
5/29/15 (JSD): P84 construction funding project complete as of 3/09/15. 2/13/15 (JSD): P84 construction funding project is almost 100% complete

Blending problematic w/ drought, so will be trying filtration soon

BOTTLED WATER OFFERED AT COST

Quarterly monitoring, public notice

Treatment plant installed and approved for pilot study in March 2015

Reverse osmosis POU treatment was approved by LPA and installed in July 2011.

Arsenic removal treatment installed using hybrid ion exchange technology.

2/2/15 (JSD): Phase 1 of P84 project included drilling a new well (Well 09) and Phase 2 of the project included construction of arsenic adsorption treatment plant and a new 750,000-gallon tank for blending of treated water and a portion of bypassed water from Well 09

They were in compliance until the drought hit about the 3rd quarter last year. The system installed a gravity fed resin bed filter, which has been working and sampling monthly. The November 2015 sample is ND.

Waiting for submittal of pilot study report to approve treatment plant and return system into compliance. Due to be submitted by 5/1/15 and system should return into compliance by 7/1/2015.

Tier 2 arsenic notifications issued quarterly. Well is sampled quarterly for arsenic. Water system is a packing house that serves approximately 80 employees. System is classified as non-transient, non community

10/05/15 (JSD): Arsenic treatment is operating successfully; returned the system to compliance as of 6/30/15.
5/29/15 (JSD): System expected to return to compliance in second Qtr. 2015. 2/13/15 (JSD): Expected to return to compliance during second quarter of 2015.

10/05/15 (JSD): Returned to compliance as of 6/30/15. 5/29/15 (JSD): P84 construction project is complete as of 3/06/15; arsenic removal treatment and blending treatment being provided. RTC expected in 2nd qtr. of 2015.
2/13/15 (JSD): P84 project is expected to be completed by end of February 2015.

Not applied

System not eligible.

7/2/2015 - 7/1/2015 compliance date will not be met.
Compliance should be achieved by 10/1/2015.
Have Prop 84 construction grant. Construction has begun.
Notice to proceed was issued on 7/7/14. Construction completion deadline is 7/7/15.

SRF construction - COMPLETE

Operator submitted Univ Preap during Sept 2009.

adsorption treatment or interconnection. Interconnection is preferred, but if other water system doesn't agree, treatment plan has been approved and can be installed within 120 days.

Treatment plant was placed into operation in May 2015.

Arsenic removal treatment installed

Received Prop 84 construction funding. Will construct new water intake away from source of arsenic.

Construct an arsenic treatment plant.

POU installation using P84 Part 1 grant funding

9/22/15 - New well and Treatment plant function producing water in compliance.
6/30/2015 - New well and TP installed. Will RTC - with future quarterly monitoring results.
In Construction. RTC required by 6/30/15

Pilot study began in May 2015. System should be found in compliance by 7/1/2015.

7/29/15 update: Approval to operate arsenic treatment given 3/4/15. Current 4QRAA is 6.3 ug/L. Will RTC system eff 8/1/15.

9/22/15 - Treatment plant went on line 8/25/2015. Going to take a raw water sample to show compliance with the Arsenic standard. Moved intake downstream where arsenic level is below standard. Project also involved replacing the surface water treatment plant at a new location. Once sufficient monitoring has taken place the system will be returned to compliance.

7/2/2015 - Treatment plant construction well underway. Currently project completion is projected to be the end of September 2015 and the system producing water with arsenic levels below the MCL.

9/21/2015: RTC - Sept 2015; As trt installed. CO issued Q1 2015

POU units have been installed on 26 connections. RTC after 4 QRAA < MCL. **7/29/15 update:** 4QRAA with POU in place for one quarter is 23.5 ug/L. Anticipate RTC by end of 3rd Q 2015.

6/30/2015	Drilled new well and installed an arsenic removal treatment plant.	No
7/17/2015	Results of Pilot Study	No
8/1/2015	4QRAA < MCL after treatment installed	No
8/25/2015	Switched to new source intake location on 8/25/15. Sample collected on 9/12/15 from new location was "non-detect" for arsenic. Another sample collected in October 2015 from new location was 2 ppb.	No
9/1/2015	RAA < MCL - Treatment Installed	No

10/05/15 (JSD): Supplier's Certificate of Project Completion dated 9/29/15 has been received. 100% inspection of the project by DDW and DFA staff was conducted on 09/29/15. Project completion certificate of DDW is under preparation.

5/29/15 (JSD): Construction project is over 90% complete with estimated completion date of June 30, 2015.

2/13/15 (JSD): P84 construction funding project in progress; 75% completed.

Was in SRF, requested bypass

We executed their planning FA (\$40K) in 2011 and the FA expired 5/1/13. No work was done and no claims ever submitted.

Prop 84 Planning and Feasibility turned down because they did not want to consolidate. Plan to apply to SRF

Going from groundwater well to a surface water system

Drill a new well and arsenic removal treatment using adsorption

Recently drilled new well, water quality testing meets standards, undergoing testing to determine if water meets quantity standards. Q. PON As. Q. As testing

Arsenic and Manganese treatment facilities.

Evaluating consolidation, new source, treatment.

Currently in the process of reviewing the surface water system documentation and plans

10/05/15 (JSD): The new arsenic removal treatment plant is operating and the water system has been returned to compliance as of 09/30/2015. 5/29/15 (JSD): Construction of the arsenic removal treatment plant and Well 03 is almost complete. Commissioning of the treatment plant is in progress. 100% completion of the project is expected before June 30, 2015. 2/13/15 (JSD): A new well drilled to replace failed Well No. 1 and adsorption arsenic treatment being installed. Project completion deadline of May 21, 2016 according to the P84 funding agreement.

Treatment plant completed along with initial testing phase.

8/02/2016 Permit Amendment was received to inactivate East Well from the water system. 4/28/2016 No status change from previous update. Public Notification Provided. West Well; currently has a 4 quarters RAA under the MCL, therefore has returned to compliance. However, east well still over MCL. East well is only standby, however. Still connected to system though.

9/18/2015	Converted over to a surface water treatment plant. Inspection was performed by the LPA to confirm construction was performed according to approved plans. A new State permit will be issued.	No
9/30/2015	RAA < MCL - Treatment Installed-Arsenic removal treatment (using adsorption technology) has been installed. The treatment plant is adequate to achieve compliance with the arsenic MCL.	No
10/10/2015	Drilled a new well	No
10/28/2015	RAA < MCL - Treatment Installed	No

Funding project nearing completion. Arsenic treatment plant has been online since September 2014. Treated water meets the arsenic standard.

Self-funded through community block grant.

Privately owned - System not eligible.

State community college. Have given them the pre-application information and strongly recommended they apply for funding.

PN required, existing treatment plant was re-engineered and construction was completed in September 2014.

Treatment

Continue quarterly sampling to monitor arsenic levels and report in CCR.

8/3/2015 (JD): PWS had their treatment on-line starting in September 2014. So the plant effluent is <10ppb but the RAA was > MCL as of the 1st quarter 2015. It is anticipated that after the 3rd qtr 2015 the RAA is < MCL.

Water System put new source online. Well #1 is now being used as a backup well and is not interconnected. Treated water sample for 11/16/15 was 5.3 ppb

Proposed piloting treatment but vendor nonresponsive. **7/29/15 update:** 4QRAA = 7 ug/L. Will RTC if they maintain QRAA<MCL for four full quarters. System continuing to look at piloting treatment. **9/17/15 update:** 4QRAA = 3.7 ug/L. Will RTC if this trend continues. 12/8/15 4QRAA <MCL for 5 consecutive quarters based on reduced source water quality arsenic concentrations. RTC effective 12/8/15.

System is currently still at 10 ug/L running annul average. They will continue to collect quarterly samples and provide sample data in their CCR's. All previous arsenic violations dating from 2007 to 2010 have been returned to compliance in SDWIS. There have been no arsenic MCL violations since 2010.

11/6/2015	RAA < MCL - Treatment Installed	No
11/16/2015	RAA < MCL - Treatment Installed	No
12/8/2015	Arsenic concentrations in source water reduced over last 5 quarters.	No
12/28/2015	RAA < MCL - Natural Causes- No arsenic MCL exceedance since 2010. Previous violations have been returned to compliance but system is still collecting quarterly samples and including this data in their CCR.	No

Under RAA

Treatment

9/23/15 - Action Plan was resubmitted. Submitting qtrly reports. ATEC has been hired to design a treatment plant. Plan is still to RTC the end of summer 2016. Should note that arsenic levels seem to be trending down, last two results were 10 and 7.1 ug/L. Based on RAA, system may no longer exceed MCL depending on 4th qtr. result. 7/2/2015 - Action Plan was submitted, District requested revisions by July 10, 2015. Based on the most recent progress report, the system is working with a vendor to scope and assemble the treatment plant, with the goal to RTC by end of summer 2016.

4/15/15 - Conversation with Jan Sweigert - CO 05-14R-002 issued on 05/30/14 and amended 10/03/14. CO imposed a RTC deadline of 7/31/2016 and required a revised corrective action plan be submitted by 11/10/14.

3/7/16 RAA below MCL. Returned system to compliance in SDWIS. 11/15/2015-system is proposing to do blending. System only needs some infrastructure for blending - flowmeters and valving for regulating the blending. Submitted a permit amendment for blending. 10/15-2nd quarter arsenic not collected. System collected 3rd quarter but results not available.

12/31/2015	1/12/2016:RAA < MCL - Natural Causes - Stabilized and consistently dropped in last 5 quarters: 16, 16, 10, 7.1 and 6.3 as the result for 4th qtr. 2015. System will remain on quarterly monitoring to ensure arsenic levels do not start to increase with change in recharge conditions due to this year's wet weather.

Construction FA issued for treatment at Garzoli Well

Installing arsenic treatment plant- Adsorptive media

--	--

--	--

--	--

--	--

2/8/16- (TW): System has awarded contract for \$3.6 Mill. construction of arsenic treatment plant and storage tank. They did not use well from approximately 6/13 to 12/15. Used the well in early 2013 to pilot different media. Current RAA = 8.1 ppb. However, well only turned on to collect sample so - low sample results may be due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. Construction bid awarded for \$3.3 Million with construction 12-18 months. System instructed to take 1st quarter 2016 arsenic sample-if below the MCL, the system may be returned to compliance. current CO dated 5/8/12 - directs them to minimized the use of the Garzoli well in the system. 11/15/2015- (TW): System going out to bid. Estimated construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. 8/4/2015 (TW): Construction application has been received and waiting for the Construction FA to go out to bid. Estimated FA issued Fall 2015 with Construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.

3/7/2016	<p>Source(s) Reclassification - Garzoli Well was inactivated. The City has a FA for the construction of an arsenic treatment plant – construction is starting. The well be offline until the project is complete. The RAA has dropped below the MCL – last sample from 11/15 was 6.4 ug/L.</p>

ON ASSISTANCE REFERRAL LIST I THINK

No SRF application

New owners. Revisiting permanent source of blend or consolidation.

Consolidate with the City of Santa Rosa

3/3/2016- DEs is positive Bella Vista has connected to Paso Robles Beach MWC. The water system needs to sign the declaration form saying they are no longer a water system and state the reason as they've connected to a permitted public water system, which should be named specifically. A letter was also sent a letter to the Paso Beach operator asking for documentation. Once we receive those documents, we will add it to the RTC list. 12/2015-Bella Vista is no longer blending, they are 100% purchasing water from Paso Beach. LPA has not seen the final contract so until they do, they don't want to inactivate the system. Kurt Souza says they are RTC because the water deal is going to happen. 6/2015-Hook up in progress to local CSA - Kurt S. advised to take of list. Until then they are blending.

2/26/2016-In litigation - The inn's owner and his contractor have submitted sworn testimony subject to penalty of perjury in state court attesting to the fact that inn is (and has been since October) connected the city water system and disconnected from the well. 1/11/2016 - Project appears to have been completed but there is no communication from Palms Inn.

9/22/15 - Attorney General's office if overseeing compliance with the stipulated agreement.

Stipulated Judgment agreed to in Sonoma County Superior Court. System must connect to City of SR by Oct 31, 2015.

3/21/2016	Connection to Paso Beach water co., wells disconnected from domestic system.

--	--

4/27/16: Received correspondence from the City of Hanford and the operator. The permit was processed and the connection is set to be final on 5/11/16. I have reported the information to Tricia Wathen. 3/10/2016: Anticipated to have the consolidation completed by 3/31/2016. They are currently in the process of laying the pipe and making the connection to the City of Hanford. The County sent the District the PO from corporate on the installation of water mains to connect to the City of Hanford. Cost is approximately \$95,000 and was dated 2/23/16. once construction is completed, the water system will be inactivated and RTC. 12/1/2015-Pending Consolidation with City of Hanford. Last update was obtained in October 2015. The system currently is supplied city water for their production but their domestic line remains to be connected. A revised CO will be issued if they do not consolidate by January 2016.

Funding approved for planning. Evaluation to blend sources to reduce arsenic level to below MCL. Two of the thee wells are below the MCL. Funding application approved.

2/18/2016. Filtering system was installed. First sampling results submitted on 3/16/2016. Results were non detect. A three month sampling to be conducted to evaluate proper function of sytem. 2/18/2016: Plans for filtering system were approved. Installation will take place 2/29/2016. 1/15/2016: Plans for a filtering treatment submitted. Original compliance plan submitted to LPA September 30th, 2010. Compliance plan was changed in 2014 to blending plan. Proposed solution was a blending plan which was approved by District Engineer and LPA 7/17/2015. Some efforts were made to implement plan, but was not implemented. On 10/23/2015 representative informed DEH that they will be looking into a filtering system. Plans will be submitted within the next week. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.

Inactivate Well #3. Wells #1 and #2 are below the Arsenic MCL.

4/18/2016. Filtering treatment system has been installed, Two consecutive sampling sets a week a part were reported non- detect. sampling for 4 initial weeks and then monthly. DE required the running annual average of treatment to meet requirements before the system is returned to compliance. 1/15/2016: after evaluating levels of uranium and arsenic, operators decided to install a filtering system instead. The filtering system gave them more confidence to reach compliance. 2015: Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. State engineer and LPA visited site in January 2015 to evaluate blending plan. Blending plan was approved, but system decided not to implement. System will be submitting plans for a filtering system with in one week. 7/26/2016 Filtering system was installed. The system appears to be working last two quarters have been ND. DE requested 4 to be below 10 before RTC. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.

6/24/2016: Inactivation was delayed to coincide with summer break. 4/29/16-Well 3 to be inactivated in June 2016.
1/29/16-Well 3 to be inactivated in February 2016

7/27/2016	Treatment has been provided. RAA is below MCL

No	2Q/2016 – Well 13 -11 ug/l RAA ; Treatment - 5.1 ug/l

City has submitted an application for funding thru SDWSRF.

The system has submitted a corrective action plan. They are exploring treatment options.

1/24/2017: This system was RTC in SDWIS and should be removed from the tracking spreadsheet. 6/29/2016: They have continued to have difficulties with getting the blend treatment going. They are currently just using Well No. 401 and not Wells Nos. 1 and 2. However, if demands increase, then they would need to use Wells Nos. 1 and 2 (high arsenic wells) to meet demands. 5/7/2016 - KDC: Blending treatment should be operational by June 30, 2016. 3/10/2016: system will be in compliance by the end of March 2016 by either blending or using the intertie with the adjacent prison's well. 11/2/2015 - KDC: Blending treatment should be operational by Dec 31, 2015. Mechanical issues with the blend source caused delays in commencement of the blending treatment.

6/29/2016: The treatment plant is installed and operational. As indicated, their treated water results are 5.1 ug/L. This system will be returned to compliance. Updated 9/29/2015 - KDC: Arsenic treatment plant being installed and should be operational by December 31, 2015. Per a law suit that was settled out of court, the City must be providing arsenic compliant water by 6/30/2016.

12/6/2016- The well 2 arsenic treatment project is being funded w/ Calpine's own resources. Calpine has other funding applications submitted under review, including one which adds a new well and another to install meters. (PETE)

Prop 84 feasibility study is completed. Submitted SRF application for construction funding

No

10/24/2011

11/28/2012	6/2/2014

3/1/2017 - Sierra County WWD #1 remains in compliance with arsenic treatment requirements. 11/4/2016 - Sierra County WWD #1 - Calpine completed construction of the wellhead arsenic treatment system at Well 02 on 10/15/2016. Purging and testing was run to waste and the effluent samples tested ND for bacti and arsenic. DDW sent a letter of approval for operation prior to the permit amendment completion on 11/4/2016. The water supplier returned to compliance on 10/25/2016. Entered in SDWIS 11/2/2016. **8/1/2016** Sierra County WWD #1 - Calpine submitted their quarterly report in accordance with the Compliance Order. It describes the work to date on the wellhead treatment system they will be installing in September 2016. They indicate the self-funded construction project is still on schedule for wellhead treatment completion and compliance with the arsenic MCL by November 2016. Filter vessels and media are in process of being installed. **6/27/2016:** the District has informed us in writing that the well head treatment project is on schedule. Completion of construction is expected in the next 60 days. Once construction is completed the design engineer and system's chief treatment operator will work together to commence start-up testing. 9/22/15 - Proposing a quick time line project to put in well head treatment. Piloted adsorptive media. Will be able to meet November 1, 2016 deadline to be in compliance. However, they didn't apply for SRF. Skid mounted treatment system. Set up for CRWA circuit rider to help with putting an application together but they have decided to fund project with their own money. **7/1/2015** - DDW issued a second compliance order to the District on March 4, 2015 which included a Nov 2016 compliance deadline. The Order directed the District to present a Corrective Action Plan by April 1, 2015 which they did not meet. As a result, DDW issued a citation with \$500 penalty to the District on May 8, 2015. The District submitted a Corrective Action Plan on June 10, 2015 which is to provide wellhead arsenic treatment (adsorptive media) at their one high arsenic well. Preliminary construction drawings were submitted on June 29, 2015 and are being reviewed by DDW. In order to complete the project as soon as possible (by the end of 2015), the District is planning to use their own reserves to fund the project however, per DDW's request the District will also submit a SRF application in order to keep their funding options open.

1/13/17 - Water system was returned to compliance in the 4th quarter of 2016. The new source is being tested quarterly for arsenic as its preliminary and initial arsenic tests indicate near the MCL (8-9 ug/L). *Construction application is complete and FA is in progress. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.

5/9/2016-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days. 12/1/2015-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days.

02/06/17 (JSD): Revised plans and specs for the regional consolidation project have been received; they are under review by the DDW staff with a goal to complete review by 02/15/17. The water system has been returned to compliance since the running annual average values for last several quarters have been below 10.5 ug/L. 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA. 10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results of the test well are awaited. Draft PDR of the design of consolidation pipeline of small systems has been received and is under review by the DDW. Deadline for completion of the planning project is January 22, 2016. Part of Rosamond CSD Regional Consolidation P84/SRF Planning Project.

6/16 - RAA is below MCL. Planning to return Richgrove back to compliance. Awaiting 2nd Q 2016 result. 4/28/16
System has 5 consecutive quarters of data on file. RAA is below MCL. 3/10/2016: Monitoring has been sporadic and will be expecting a sample result at the end of the month and the District will evaluate then. 10/15-Planning study completed. LOC issued for P84 construction funding. CSD behind on financial audits which prevent a water rate study to be completed which needed before the Prop 218 hearing can be completed.

1/24/2017: POU devices installed at all five locations where domestic water is available at the facility. The permit was recently issued and the sytem will be returned to complinace once they have completed the arsenic monitoring at the effluent from the POU devices. Updated 4/25/2016 - KDC Proposing to install a POU device at the Industrial Park for removal of the arsenic.

1/24/2017: Updated operations plan received. Changes at the arsenic removal plant have resulted in lower arsenic levels in the effluent. This system will be returned to compliance in SDWIS. Update 4/25/2016 - KDC: The System has worked with the manufacturer to optimize the arsenic removal treatment plant. The monthly arsenic test results have been below the MCL but the RAA is still over the MCL. The System anticipates having and RAA less than the MCL in the 3rd quarter of 2016. We should be able to return this system to compliance by the end of 2016.

2/6/2017	MCL has remained below the MCL for at least 2 years.	Yes
3/9/2017	POU treatment installed	No
3/21/2017	Treatment working correctly	Yes

	Natural Attenuation
--	---------------------

04/17/2017- Quarterly progress report received. System sampled on 01/06/2017 and ND result pushed RAA to 5.4 ppb. System has RTC by natural attenuation. Violation has been SOX'd in SDWIS. SF District has requested system to continue quarterly monitoring for the rest of 2017 and until individual results are consistently below 6 ppb. PLEASE REMOVE FROM SPREADSHEET. 01/10/2016 - Quarterly progress report received. Arsenic levels trending back down to historical levels of 6 to 7 ppb in past 3 quarterly samples. Possible that system samples back into compliance in Q1-2017. If system still out of compliance, Treatment Eval. due 04/30/2017, in accordance with CAP. 11/14/2016 - Submitted arsenic evaluation cites source of elevated arsenic levels as well discharge pipe scaling and reservoir sediments. Distribution samples consistently below 10ppb. 10/18/2016 - Quarterly progress report received. 07/28/2016 - Compliance Plan received. System proposed to continue sampling the well as levels appeared to go questionably high above historical. System currently uses RO units for POU consumption. District will have to verify if the RO units are certified for treatment and can be permitted.

	Consolidation
--	---------------

3/29/17 - Consolidation into the City of Ceres was completed and the system was SOX and inactivated. 1/13/17 - Encroachment permits delayed the anticipated consolidation completion date of December 31, 2016. An updated timeline for completion has been requested. **6/16/16 -** Water system obtained legal council to move negotiations forward and anticipates closure of negotiations by the end of June. Beginning in July the water system will initiate obtaining construction permits for the service connection. **4/22/16 -** The water system projects having consolidation fees negotiated with City of Ceres within the 2nd Qtr of 2016. **2/26/2016:** This water system is scheduled for an Office Hearing on March 1, 2016 due to failure to move forward with consolidation and will receive a revised compliance order. **11/2/2015-***Consolidation plans submitted on 8/24/15. Existing well will be converted into a landscape well and domestic supplies will be provided from the city of Ceres.

10/13/2016	New Well/Source
------------	-----------------

07/05/17 (JSD): RTC entry has already been made in SDWIS to show return to compliance with the arsenic MCL.

05/05/17 (JSD): As of first quarter of 2017, the water system has been returned to compliance since the RAA value is below 10 ug/L. The two new wells produce water that complies with the arsenic MCL.

02/06/17 (JSD): Interim approval to use the newly drilled wells (Well 03 and 04) was given on June 7, 2016. The RAA value for the 4th quarter is 9.9 ug/L. After one more quarter of RAA below the MCL, the water system will be returned to compliance (expected after March 2017).

11/09/16 (JSD): P84 construction funding project has been completed. Project completion documents are under preparation by DFA. Two new wells are successfully running. The water system is expected to be in compliance with the arsenic MCL after the 4th quarter of 2016.

08/03/16 (JSD): Construction project is over 90% complete. Interim approval to use the newly drilled Wells 03 and 04 was given on June 7, 2016. Expected to achieve full compliance with the arsenic MCL in the 4th quarter of 2016.

04/28/16 (JSD): Construction project is about 75% complete.

01/19/16 (JSD): Construction of the project is in progress; about 25% completed.

10/05/15 (JSD): First bidding of the project was not successful. The project was rebid on 9/29/15; waiting for a decision on the second bidding.

5/29/15 (JSD): P84 construction funding agreement executed on April 8, 2015 with a completion deadline of 3 years. P84 construction funding application received; plan to issue construction funding agreement before end of Feb. 2015.

11.09.17 (JSD): Boulder canyon is now part of Hungry Gulch MWC and should be removed from the arsenic tracking list. Boulder Canyon wells are now part of Hungry Gulch MWC (System No. 1500436). 08/07/17 (JSD): Construction funding agreement has been executed with a project completion date of Nov. 1, 2019. 07/05/17 (JSD): Construction funding agreement just got issued; DFA to provide more details. 05/05/17 (JSD): Same updates as the previous quarter; some delay in issuance of construction funding agreement. 02/06/17 (JSD): same update as the fourth quarter of 2016. 12/12/2016- Construction application is being processed. 11/09/16 (JSD): P84 planning project has been completed. The water system is in the process of completing a construction funding application. 08/03/16 (JSD): Planning project is essentially complete. The water system is working on filing the construction funding application via FFAST. Environmental Review Unit of SWRCB is working on addressing the comments received on the environmental documents. 04/28/16 (JSD): Plans and specs are almost final. CEQA and NEPA documents being completed. Project completion deadline is 06/30/16. 01/19/16 (JSD): The funding agreement has been amended to extend the project completion date to 6/30/2016 and to provide some additional P84 funding. Additional time and funding required to address environmental review required by CEQA and NEPA. 10/05/15 (JSD): The funding agreement was amended to extend the project completion date to 12/31/15. 90% plans and specs were received on 9/30/15 and waiting for review by DDW. 5/29/15 (JSD): Preliminary design report for the project approved in May 2015. Plans and specs for a new well and blending treatment to be developed with a project completion deadline of 08/11/15. 2/13/15 (JSD): P84 planning project in progress with a completion deadline of August 11, 2015, per amendment issued in Dec. 2014.

2/18-Pond installed all the POU devices - DDW returned them to compliance on 9/15/17. 5/17-On 3/7/17 DFA finalized and executed the CAA funding agreement. On 3/29/17 the Division approved the POU Treatment Strategy, O&M Program, Monitoring Program, and Recordkeeping, Reporting & Compliance Documents and authorized the installation of all proposed POU devices. The Water System is in the process of installing all of the POU devices and once installed will begin water quality sampling. 12/16-installed 4 of the 16 POU devices. Plan to install POU devices and return to compliance. 9/6/2016: The office hearing was conducted in Bakersfield on 10/1/15 and the system submitted a CAP which we received a revised and updated CAP on 10/8/15. The system was informally approved for CAA funds for the POU project. The system is still waiting on the formal agreement from DFA, but given approval to begin incurring expenses. The POU pilot devices (3 different types) were installed this last Monday on 8/29/16. 6/16 - XX. 10/15-Had CAP meeting 9/15, system submitted CAP. System planning on piloting POU for installation at all 16 SC

	Consolidation
--	---------------

11.09.17 (JSD): This system was returned to compliance (RTC) as of 09/30/2017 since the RAA values for arsenic have been below 10 ug/L for several years. Also, the CO for hexavalent chromium was rescinded due to invalidation of the MCL. The water system is still part of the Rosamond CSD regional consolidation project. DDW staff provided comments on the updated plans and specs for the regional project to GEI on October 20, 2017. Updated plans and specs are awaited. 08/07/17 (JSD): Updated plans received on July 20, 2017; they are under review by DDW. Updated specs are awaited. 07/05/17 (JSD): Per recent email communication with the engineer (GEI Consultants), the revised plans and specs will be submitted for review before July 15, 2017. 05/05/17 (JSD): DDW completed review of the draft plans and specs for the regional consolidation project and provided comments on February 21, 2017. As of 5/5/17, updated plans and specs have not been received. 02/06/17 (JSD): Revised plans and specs for the regional consolidation project have been received; they are under review by the DDW staff with a goal to complete review by 02/15/17. 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA. 10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results of the test well are awaited. Draft PDR of the design of consolidation pipeline of small systems has been received and is under review by the DDW. Deadline for completion of the planning project is January 22, 2016. Part of Rosamond CSD Regional Consolidation P84/SRF Planning Project.

	Treatment
--	-----------

10/30/2017: Well 02 is still being tested monthly for determining compliance by RAA. Current RAA for raw water at Well 02 is < MCL. If Well 02 is consistently below the arsenic MCL, the treatment system will not be necessary for compliance. The treatment system installed in 2016 has been off and on bypass mode since December 2016. YCEH will issue a permit amendment for the water system. 6/28/2017: Well 02 has been tested on a monthly basis effective October 2016 for determining compliance by RAA. Current RAA for raw water at Well 02 is < MCL. If Well 02 is consistently below the arsenic MCL, the treatment system will not be necessary for compliance. The treatment system installed in 2016 has been off and on bypass mode since December 2016. YCEH will issue a permit amendment for the water system. 5/4/2017: The water sytem is still operating on by-pass mode of the treatment system, Well 02 current RAA is in compliance with Arsenic MCL. System operator may propose partial treatment and blending if the RAA for Well 02 goes above the arsenic MCL. The water system will apply for permit amendment for addition of new well and possible treatment. 2/28/17: No status change from previous update. 2/1/2017: The arsenic levels in Well 02 and post treatment are being monitored monthly to determine both Raw and Treated water RAAs for compliance with the Arsenic MCL. Arsenic levels in both the raw (Well 02) and treated water have fluctuated above and below the MCL since initial testing began in August 2016. Since Well 02's installation and connection to the water system, the treatment process has been unreliably effective, with intermittent treatment failure. Because of this, the water system is currently under monthly public notification, which is updated to reflect the current levels of arsenic from monthly testing results and the status of the treatment system operation as reported by the Operator. The Operator is working with Culligan to determine why the treatment system may be failing intermittently. YCEH is waiting for a final assessment of the treatment system from the Operator and Culligan pending their findings. The system is currently operating on by-pass mode from the treatment system. The raw water results (Well 02) for the month of December showed arsenic levels at 9.1 mg/L. 12/22/2016: The Yolo Fliers Club treatment system has not yet been RTC. Since the installation of treatment earlier this year, Well 01 failed and Well 02 was installed. The arsenic levels in Well 02 and post treatment are being monitored monthly to determine both Raw and Treated water RAAs for compliance with the Arsenic MCL. Arsenic levels in both the raw (Well 02) and treated water have fluctuated above and below the MCL since initial testing began in August 2016. Since Well 02's installation and connection to the water system, the treatment process has been unreliably effective, with intermittent treatment failure. Because of this, the water system is currently under monthly public notification, which is updated to reflect the current levels of arsenic from monthly

2/6/17 update: RTC effective 12/31/17 due to two consecutive QRAA below MCL for arsenic. **11/7/16 update:** the Zonneveld system was permitted as two independent CWSs via the July 2016 permit (DDW identified the two wells were not physically connected & there were two independent distribution systems). The Zonneveld-Cerini Water System (CA1000627) is now RTC effective with receipt of the 7/14/16 POU data showing ND. The Zonneveld-Cedar Water System (1000369) needs one additional round of sampling (4th Q) to demonstrate 2 consecutive QRAA of compliance. **8/16/16 update:** Results are ND for each POU device. RTC estimated by end of 3rd Q 2016. Domestic water supply permit issued for POU July 2016; **6/14/2016:** Results are ND for each POU device so far. **OLD UPDATES:** 3 units have been installed and are in process of 1-year pilot study. **5/11/15 update:** 1-year pilot study completed. DO awaiting pilot study report. **7/29/15 update:** Draft pilot study report received 7/17/15 and DO comments pending. All POU devices will be installed upon DDW approval of the pilot study report, the water system will conduct required public hearing, then proceed with installation if approved by customers. Full installation anticipated to be completed by 12/31/15. RTC would be projected to occur by end of 3rd Quarter 2016. 4QRAA of wells: Well 01-32 ug/L; Well 02-21 ug/L. **9/17/15 Update:** No Change **12/31/15** all POU devices installed and initial test completed. Will RTC when 4 QRAA shows compliance. **5/4/16 update:** No change. POU installed, RTC pending 4QRAA compliance.

2/1/18- System has been RTC'd. Permit will be issued 1Q 2018. POU's produce water well below the MCL (last samples all ND). **11/8/17-** POU's are installed. Results show the units do not always produce water below the arsenic MCL. The system is working to modify/replace/add equipment to ensure compliance. Timeframe for the POU permit is that it will be issued within 3 months. It could be sooner. They are ironing out some of the operations- DE is waiting for the data to show the configuration is working. **7/31/17:** POU's are installed and in use. Initial sampling has been performed on all devices; the system continues to conduct sampling for arsenic at the POU locations. Sampling shows arsenic at ~7-10 ppb. The system continues to sample weekly to demonstrate effective reduction. Next step will be to issue permit. **6/30/17 -** The POU/POE strategy is to treat only drinking locations. Only 3 service connections (2 offices w/ POU and 1 home w/ POE) serve drinking water. The other 8 connections are only process water. PFFJ is a massive pig farming operation; drinking water is a tiny fraction of the water they produce. The first samples show the POU/POE devices are effective, even with the high raw water concentrations. At this point, PFFJ is not pursuing an additional treatment option as the ratio of process water to drinking water makes centralized treatment infeasible. **5/1/2017-** Water system is completing installation of third (of three) POU/POE devices. Water system has submitted draft treatment strategy. **1/13/17-** Water system is still moving forward with POU/POE. Install should begin 2Q 2017. **10/26/16 -** Water system is moving forward selecting POU/POE. **8/1/16:** Water system has proposed POU/POE. System has hired a consultant to identify and select units/locations and to develop the POU/POE plan including operation. **4/27/16:** Working with water system on timeline to begin construction. Water system bringing in consultant/operator. **1/11/16:** CO issued Q1 2015. CAP identified POU as the preferred alternative. System is exploring POU vs. POE and costs. **9/21/2015:** CAP identifies POU/POE as the preferred alternative. CO issued Q1 2015.

Consolidation

2/12/18: The Beacon West Water Sytem has consolidated with the Diablo Water District. Sytem Returned to Compliance and updated in SDWIS. Water Supply permit to be inactivated upon written request from owner.

11/29/17: Diablo Water District has completed the extension of water main to Beacon West and currently conducting disinfection and sampling of the main. The Beacon West System should be supplied by Diablo Water District by the end of 2017 and the permit will be inactivated and system returned to complinace. 8/2/17: Diablo Water District has completed the Environmental Review for the consolidation project and plans to proceed in the next 2 months.

6/15/2017: Diablo Water District is the consolidating system which also currently owns the Beacon West Water System. Diablo Water District will fund the consolidation. 5/4/17: Water Systems will consolidate with another PWS and is in the process of obtaining necessary easements and approval from LAFCO. 8/3/16: Water system is evaluating potential consolidation with another PWS. 6/24/2016: Construction will be able to completed by the end of the year. 4/29/16- LPA Received New Well Project SRF 14C107 Plans and Specifications for Review. Water System is soliciting contract bids for well construction. 1/29/16- LPA Received New Well Project SRF 14C107 Plans and Specifications for Review. Water System is soliciting contract bids.

05/14/18 (JSD): The water system has returned to compliance with the arsenic MCL and a new permit has been issued to the water system. 03/06/18 (JSD): POU devices have been operating and successfully removing arsenic under an interim approval letter. Since four quarters of 2017 show results below the arsenic MCL, the water system has been returned to compliance. Permit will be finalized soon for issuance. 11/27/2017: Per comments in the arsenic spreadsheet, POU devices have already been installed and operating. Plan to issue permit soon. No plan to issue any further enforcement. 11.09.17 (JSD): Testing in progress after making some changes in the POU devices. DDW will issue a permit afterward. 08/07/17 (JSD): POU devices continue to operate under interim approval. Permit for POU devices is on hold due to further follow-up on some POU devices showing high HPCs, due to low usage. Waiting for corrective actions by the water system to change some components and retesting. 07/05/17(JSD): THE POU devices continue to operate under interim approval. Permit was delayed pending evaluation of bacteriological quality of the water from the POU devices and is expected to be issued in July 2017. 05/05/17 (JSD): POU arsenic treatment is installed and operating. DDW is in the process of issuing a domestic water supply permit. The system is expected to return to compliance after second quarter of 2017. 02/06/17 (JSD): The POU arsenic treatment units have been installed and operational. DDW is in the process of permitting the facilities. After second quarter of 2017, the water system is expected to be in compliance. 11/09/2016 (JSD): Self funded POU treatment being installed, following completion of a POU treatment pilot study. Expected compliance date is end of 2016.

2/12/18 - Plant continuing to run well - RTC on 2/13/2018 in SDWIS - 12/1/2017-LPA will if November samples continue to meet compliance. They have had so many issues that LPA does not want to RTC them too soon. However, they have finished the upgrades (replaced a lot of valves/pumps) and have standby equipment so plant is much improved.

11/8/2017 - treatment had another operational failure due to storage tank failure and valve replacements . System is operational again and will be RTC'd af next month if samples continue to show treatmetn is working. System has also ordered backup equipment for all pumps. 5/5/2017-had issue after major February storm- March samples good. If May ok, BWO will be lifted. 1/31/2017-treatment plant under 10 ppb since July 2016- changes in coagulant feed and backwash seem to be successful. 5/11/16-April finished water was 32 ppb so plant is still having issues with maintenance. 3/7/2016:they are tweaking their treatment process (updating software to better control backwashes and just added a coagulant feed. The new compliance date is June 30, 2016. If the upgrades don't work, then we will send another compliance order (or citation). 1/29/15- added chemical feed and upgrading software/controls to improve backwash- next few months will indicate if successful. 12/1/2015-Will work with engineer to determine why it's not working. 11/3/2015-treatment plant not working to drinking water standards.- was working for a few months, but started failing again.

2/13/2018	Treatment plant operating in compliance	Yes

5/9/2018 RAA from post-treatment sampling is consistently below the MCL. Will advise the system to lift public notification. The system has returned to compliance. 2/2/2018: Permit for Well 2 and Blending Treatment for Arsenic was issued in 2017. LPA will continue to monitor post-blending Arsenic levels for 1Q2018 before removing public notification requirement. 11/27/2017: Bogle's well has been online since August and we are working to issue them a permit, but we are waiting on them to submit required docs. We were going to monitor their monthly post-blending AS samples for 6 months (till Feb) to make sure their levels are OK. When that is complete, we will allow them to lift public notification. 10/30/2017: Permit amendment approved 8/15/2017. Well 02 has been added to the water system. Two individual post-treatment samples from August and September 2017 exceed MCL, and current average > 50% MCL. System to continue Public Notification as we monitor samples for 6 months. 6/28/2017: Permit amendment applicaiton recieved for Well 02, currently under review. Well 02 under initial sampling requirements for Title 22 analyses. Connect of Well 02 to water system on hold pending approval of blending as treatment plans and calculations by YCEH. Initial arsenic sampling for Well 02 < 50% MCL. 5/4/2017: Connection of Well 02 to water system pending final construction. Water system is to submit permit amendment applicaiton and blending technical report, specifications and initial water sampling results for Well 02 for review and approval prior to connection to the water system. Required documents to be submitted by 5/19/2017. 2/28/17: Connection of Well 02 to distribution system postponed due to weather. Water sytem may request extension to CAP connection deadline of 4/30/2017. Water system is undergoing permit amendment process. Water quality results to be submitted for Well 02. 11/4/16: Corrective Action Plan submitted 9/2/16 in response to Compliance Order CC0001190. Well 02 was installed 9/16/16 pending final inspection; blending proposal to be submitted to YCEH by 11/30/16. 8/8/2016: A new compliance order was issued in July 2016. Water system will submit a new Corrective Action Plan by 8/31/2016. 6/28/2016: LPA will be issuing the water system a new compliance order by 7/1/2016. Water system was RTC due to a misunderstanding that bottled water was an acceptable long term solution. Sanitary survey was conducted , a new compliance order will be issued by the end of May 2016 .

	Treatment

05/10/2018 System completed pilot study in March and system RTC. System is back to RTC. 02/18/2018: Water system installed POU and are currently piloting. Water system will be brought back into compliance once pilot study is over and approved. **11/27/2017: deadline for the POU pilot plan - The operation and maintenance plan has been approved and the water system will be installing the unit prior to 12/31/2017. The water system has chosen an approved POU from the SWRCB list.** 11/08/2017 Engineering firm submitted O&M for review and returned for further update and corrections. The units are schedule to be pilot and installed by 1st quarter 2018. 8/7/2017 Engineering firm is still working on a POU pilot plan to be submitted by the water system. 6/30/2017: System chose an engineered company and will be submitting plans, specs, and calculation for approval. Once approved, the POU will be pilot. 05/04/2017 Water system contracted an engineer to assist with treatment options for Arsenic. 10/31/2016 No status change from previous update 9/8/2016: You are correct, this compliance order is a duplicate that was issued when the 3rd well exceeded the RAA for arsenic. The correct comply by date is 5/3/2019. I will amend the compliance order to include all 3 sources that exceed the arsenic MCL. Wendy has corrected the master spreadsheet. The water system has corresponded back to Madera County indicating they will comply with the directives of the compliance order. They are currently looking at POU as a possible treatment. 8/3/2016 Compliance Order is active because water system decided to keep wells active. Public Notification Provided. Change of Operator. In contact with new operator and he has hired someone to prepare a conceptual plan for obtaining compliance. 4-28-2016 1Q2016 16; OVER THE MCL RAA, NEW COMPLIANCE ORDER ISSUED FOR WELL3 . 1-15-2016 Well 1 has been inactivated from the water system. The new well was supposed to bring the system back into compliance however the New Well 3 hypothetically best case scenario for the RAA is 10.4 ug/L even if the next quarterly Arsenic sample is 0 ug/L. So far results are as follows: 2Q2015 9.6 ug/L; 3Q2015 17; 4Q2015 15

5/24/2018: This system was returned to compliance in May 2018 because the system inactivated Well No. 2 and 3 which exceeded the arsenic MCL and is only using Well No. 4 which produces water below the arsenic MCL.

3/31/2018	POU treatment installed.	Yes
5/1/2018	WELL #2 & 3 Inactivated

	Treatment
--	-----------

8/1/2018 Arsenic treatment system repaired in May 2018. Post Treatment Arsenic levels 0 ug/L for 6/1/2018.

5/9/2018: Post-treatment Arsenic levels for 1Q2017 approaching MCL, treatment resins need to be replaced. Citation issued in April 2018 for treatment failure. Post-treatment Arsenic levels for 4Q2017 continue to show that treatment is not working effectively . System will post public notification and plans to replace the treatment resins in Feb-Mar 2018.

11/27/2017: LPA doesn't feel comfortable RTC them based on some of the treatment effluent results. They seem a little too close to MCL and are showing an upward trend.

10/30/2017: Water samples results received for source (quarterly) and post-treatment (monthly). RAA for distribution samples < MCL. System operating on full treatment mode with no blending.

6/29/2017: Water sample results recieved for January-June 2017 sampling. RAA for distribution samples is < MCL. System is still operating on full treatment mode with no blending.

5/4/2017: Water system is operating on full treatment mode with no blending. No sample results recieved arsenic monitoring during 1Q2017, M&R citaiton issued to water system on 4/24/17.

2/28/2017: Permit Amendment issued 2/16/17. RTC pending based on RAA of treated water.

2/1/2017: Treatment was installed in September 2016. Water system is blending raw water with treated water to meet water demand for facility. Water analyses post treatment for 3Q2016 and 4Q2016 show levels < 50% MCL. Final blended water levels of Arsenic are not below the MCL. The water system is currently under public notification and has three POU devices which are installed on a temporary basis for MCL compliance. Sampling post POU's show levels of arsenic < 50% MCL.

5/5/2016: EPA had a conversation with the LPA to discuss a possible issuance of a NOV, but as time went on the water sytem submitted water quality data for the past year and has proposed to install treatment by 6/30/2016. EPA will follow-up with the LPA for a status update.

8/8/2016: Water system requested a 60 day extension for implementaion of the treatment plan for contracting and funding reasons. New deadline for treatment implementation is 8/31/2016.

4/18/2016-A letter of commitment was received in April, 2016 with implementation of the treatment plan by 7/1/2016.

2/2016- Engineering report received with proposal to use activated alumina absorptive media.

12/7/2015-The system has not RTC, but is expected to provide a treatment proposal that will include coagulation and filtration.

11/2015-Temporary proposal approved for reverse osmosis POU treatment.

3/10/2015: System is not moving forward with directives that are in the last compliance order. We are asking EPA to go forward in doing enforcement.

	Treatment
--	-----------

7/30/2018 RAA for this quarter is under the MCL the water system has been returned to compliance. 05/10/2018 Water system is in the planning phase for a treatment device. System is in and out of compliance as quarterly RAA is under or slightly over the MCL. An investigative cycle test was completed and the results indicated that the system is under the MCL, therefore DFA removed funding applicaiton. LPA will return system back to compliance if 2nd quarter 2018 is under the MCL. So it is possible that the water system will be back into compliance by June 2018. 02/12/2018: Water system has been approved for funding and working on an inteirm soultion. LPA is working with TA. 11/08/2017 No Status Change 8/7/2017 Funding project is moving forward, the system is very close to securing funds. 6/30/2017: Construction application has been submitted, waiting on approval. 05/04/2017 No status change from previous update 12/8/16- County is supposed to submit a construction app by 3/1/17 and agreement would be expected to be issued by 1/1/18. 10/31/2016 No status change from previous update 8/02/2016 Third Quarter under MCL for Arsenic. Water System submitted documents as requested and updated their Planning Application. 4/28/2016 2nd quarter under 10 ug/L since 2009 Board to meet in May; collecting docs now for funding. 1/15/2016 1st quarter under 10 ug/L since 2009. 12/8/2015-LPA asked the DE about the whether it is possible to provide bottled water. Income survey complete. Deemed only Disadvantaged.

8/10/18: The Water System has completed installation of POU devices at each residence. Average Arsenic level of treated water was 1 ug/L. Returned to compliance. 5/24/18: Pilot testing was completed on April 22, 2018. The selected POU device successfully treated water below the MCL and the water system is in the process of installing a POU device at each residence. To date, a POU device has been installed at 14 of the 18 residences. The remaining 4 residences are scheduled to complete POU device installation by June 1, 2018. 2/12/18: Water System has selected a POU device at testing protocol to be installed for pilot testing at 2 homes in February 2018. Pilot testing will be completed by March 31, 2018 with installation of the remaining 16 POU devices by April 30, 2018. 11/29/17 The water system has completed installation of POU devices at 12 of the 18 homes. The 6 remaining homes are not a part of the HOA and the HOA/System is currently reviewing insurance coverage options and legal responsibility for the operation and maintenance of the POU devices at the non-HOA residences. 8/2/17: The water system has completed installation of POU devices at 9 homes and still plans to complete installation the remaining devices by September 2017. 5/4/17: The system has installed POU devices at 8 homes to date and plans to complete installation of the remaining 10 POU devices by September 2017. 2/28/17: Water System is continuing to evaluate alternatives for POU/POE. 4/29/2016: System was issued a new Compliance Order in April 2016. 3/7/2016: System will be issued new Compliance Order by the end of the month. 12/11/2015-The water system plans to complete pilot testing for POU alternatives by June 2016.

8/14/2018. System returned to compliance. 5/21/18: DDW issued a permit amendment for arsenic treatemnt on April, 19, 2018. 2/12/2018: DDW conducted an inspection of the arsenic treatment plant on January 29, 2018. DDW is awaiting submittal of the operations plan for the treatment plant and initial sample results from the treatment plant effluent before returning the system back to compliance. 11/27/2017: Delivery of the AdEdge arsenic treatment system is expected to arrive 11/29/2017. The system should be ready for testing in the next 2-3 weeks (weather permitting, this system is in the mountains).11/6/17: The water system is moving forward with installing centralized treatment. 8/7/17: No update at this time. 6/15/17: DDW has approved treatment process schematic diagrams and facility layouts for the proposed centralized treatment system. DDW provided permitting requirements to the system via a letter dated 2/16/2017 and provided a status update following approval of the recent submittals. Installation should take place this summer, depending on access to the site (snow). 4/27/17 – Water System continues with plumbing and electrical improvements necessary to add arsenic treatment. 2/6/17 update: AdEdge arsenic removal system selected for centralized treatment based on vendor evaluation of O&M costs. Water Sysem proposes installation by end of 3rd Q 2017. 11/7/16 update: No change in status. 8/16/16 update: WS continuing proposed arsenic sampling study. 6/14/2016: Data is being obtained for 4th Q 2015. During 1st Q 2016, the operator found Wells 2&3 electrical controls had been damaged, and hence wells were inoperable. Samples could not be collected, and no M/R violation will be issued since the wells were inoperable. We have been advised that samples have been collected for the 2nd Q 2016, and results are pending. 1stQ2016 reslt for Well 1 was ND, potentially due to the pumping status of the well. Specifically, the operator is studying the possibility that the arsenic concentration reduces with pumping.

Schedule:

May - July 2016: Arsenic Sampling Study (testing arsenic during pumping cycle to evaluate changes in concentration)

August: Treatment design pending results of study will entail either a blending tank & controls or AdEdge Filtration Treatment.

December 2016: Compliance via installation of equipment (treatment or blending tanks)

OLD UPDATES: Water system evaluating alternatives. NOT using state funding. 9/17/15 update: System procuring experienced engineering services to propose alternatives for centralized vs. POU treatment. 12/15/15 CAP presented at office meeting. DDW comments sent to ws via letter dated 12/17/15. Proposal is to work with P&P Engr Consulting to evaluate alternatives. 5/4/16 update: met with water system & consultant on 4/4/16 to discuss CAP compliance and

8/15/2018. System returned to compliance. **5/21/18: Same as previous.** 2/12/18: A total of 3 POU's have been installed. The sysetem is awaiting sample results from two of newly installed POU's. 11/27/2017: One POU was installed for pilot testing and proved successful. There will only be 3 more POU's installed. There is really no need to amend the compliance order since the installation of the units can be completed in a short timeframe. 11/6/17: Three additional POU's are to be installed before the end of 2017. 8/7/17: A POU was installed on June 20, 2107, samples were collected on June 22, 2017, July 3, 2017, and July 13, 2017. All results were non detectable for arsenic. Additional POU's will be installed. 6/20/17: Water System is installing a POU to determine efficacy; if successful additional POU's will be installed. 4/27/17 update: Water system is planning to submit an additional pilot study protocol for a POU with higher capacity. 2/6/17 update: System submitted letter proposing alternate compliance plan using POU. Pilot study protocol and POU Plans provided with letter. 11/7/16 update: System will be submitting request for POU piloting soon; 8/16/16 update: No change in status **6/14/2016:** The system is evaluating the installatin of ArsenX as POE treatment . They plan to have the POE installed and operational by the 12/31/16 deadline. **7/31/15 update:** 4QRAA = 14 ug/L. Agree that revised CO is appropriate. Draft revised CO prepared 7/31/15. **9/17/15 update:** Revised CO issued 8/5/15 with compliance deadline of 12/31/16; **10/28/15** CAP meeting at DDW office proposing use of ArsenX POE. **5/4/16 update:** No change.

10/23/2018: No longer a PWS.

7/23/2018: No change.

5/2/2018: Down to 3 connections - waiting on proof of disconnection to inactivate PWS.

2/5/2018: Water system plans to dissolve, and they will provide proof that the inactivate connections are served to fall under our connection threshold. No Arsenic levels data post-POU

11/6/2017: Pilot had not been conducted in April-June as indicated in approved procedures, Water system is evaluating if they will inactivate due to having <15 conn and <25 pop. Informed they must work towards complying until they are not longer under our jurisdiction. Anticipate the system making the decision on inactivation by Q1 2018.

8/1/2017: No change in status from previous update.

6/15/17: Permit to be issued August 2017. No need to reissue CO. 5/2/17: POU Permit app nearly complete pilot study in progress, site visit completed, permit should be issued by end of Q2 or early Q3

1/17/17: POU permit in process, working with system to finalize application. A site visit will be scheduled this quarter.

10/26/2016: POU permit application has been reviewed, waiting for system to submit additional and updated documents to complete the application.

7/25/16: Water system has submitted permit application to add POU treatment. Application is in process of being reviewed.

6/16/2016: Water system is not on track with CO. New projected RTC date is July 1, 2017. 4/20/16- The system continues to work on the permit checklist items and follow the directives of the CO. 1/11/2016 - Sent a permit checklist for POU treatment on 10/30/15. System requested an extension to 4/1/16 to submit the items on permit checklist. The system has been submitting quarterly progress reports and PN as directed in the CO.

9/22/15 - System is evaluating how to implement a POU project.

6/30/2015 - Compliance order issued 5/29/2015.

	Consolidation
--	---------------

10/31/18 - Water System consolidated into the city of Ceres and has been RTC. 2/13/18 Meet with water system ownership on 1/30/18 and discussed consolidation efforts. Ownership states that fallout from the Wells Fargo matter has resulted in Wells Fargo requiring the owners to pay off all of their current credit. The water system therefore does not have the reported \$20,000 to complete the consolidation. Water system will be referred to RCAC for assistance with funding options. Request for extension of construction Directive due date will be considered. 7/3/2017: Unless DFA advises differently, this water system does not qualify for any financial support as they are a for-profit place of employment. 5/23/17 - Water system has received permits from the City of Ceres to connect, but does not have funding for the project. The water system has requested a 6 month extension to obtain funding and consolidate. The extension will be given. 1/13/17 - Water system has completed financial of their privately funded consolidation efforts. Permits will be applied for at the beginning of 2017 and the expected completion date is April 2017. 4/22/16 - The water system owner experienced a medical emergency and was unable to attend. The office hearing was rescheduled for May 17, 2016 as his Dr will release him for attendance at this time. 2/26/2016: The water system has not moved forward with consolidation. An Office Hearing will be conducted on April 12, 2016, with a revised compliance order to follow. 9/10/15 this water system received LAFCO Approval Letter for Out of Boundary Service Agreement. Consolidation time frame will be forthcoming.

Yes

2015-104004

3/25/2015

Compliance Order RTC Date was 4/10/2018; After treatment system was installed in May, District anticipates RTC after Q3-2018 sample from treated effluent.	No
--	----

No	<p>Q3-2018 RAA = 9 ug/L <i>Note: Monthly samples have been <4ppb at treated effluent (4800561-005) since July.</i> RAA was calculated using 2 quarters raw well data and 2 quarters of treated effluent data.</p>
----	--

--	--

--	--

	Treatment
--	-----------

11/6/2018: Monthly samples from the treated effluent have been less than 4 ppb since June 2018. System has RTC.

6/6/2018: First regulatory compliance sample from treated effluent (PS CODE 4800561-005) was <DLR for arsenic. District will await two consecutive quarters of <DLR results prior to formally placing system as RTC.

5/21/2018: The contractor will be starting up full scale testing of the adsorptive media treatment system to remove arsenic for these two sources the week of 5/21/2018.

3/21/2018: Owner and contract operator submitted treatment design proposal to District, for use of Metsorb HMRG titanium oxide adsorptive media in lead/lag operating vessels to remove arsenic from both wells. Similar designs proposed by contract operator have had prior success and have been permitted in the SF and Sonoma Districts. The SF District is currently reviewing the treatment design.

2/3/2018: Owner contracts new certified operator (Bud Johnson of CalAqua, Inc.), highly experienced in operating small arsenic treatment systems throughout Napa-Solano-Yolo-Sonoma counties. Owner and certified operator are currently reevaluating treatment options. SF District intends to hold off on additional enforcement and fines for the time being, as long as significant progress is being made towards compliance. Obvious that system will not meet the compliance deadline of April 1, 2018.

1/10/2018: Owner pays fine and responds to the Citation.

12/28/2017: Citation (No. 02_04_17C_014_4800561_02\$) with fine of \$1,000 issued to Owner for failing to comply with compliance order directives, specifically for failing to provide a quarterly progress report and failing to meet deadlines in Division approved Compliance Plan.

7/31/2017: System sent a late, brief status report stating no progress. System has not completed a treatment system design. District is preparing further enforcement action.

6/15/2017: Submittal of the treatment design selection is due on July 10, 2017, along with their 2nd Quarter 2017 Progress Report. We have reiterated to the owner that the State Board will not extend the compliance deadline date of 4/10/2018 and that failure to proceed in accordance with the approved compliance plan may result in a citation and possible fines.

5/1/2017: System submitted quarterly progress report. Did not meet May 1st deadline for completing design of treatment system in accordance with corrective action plan. System cited winter flooding impacts and consultant delays in selecting appropriate filter as reasons for not meeting design deadline.

1/13/2017: An acceptable corrective action plan received October 10, 2016. Next plan milestones: 2/1/2017 to select treatment vendor and media, 5/1/2017 to complete treatment design, installation completed by 1/1/2018. Proposed schedule is consistent with the March 2015 order requiring RTC by 4/1/2018.

9/2/2016: Letter stating we did not receive a corrective action plan was sent 7/19/2016. Next action will be: either we receive a viable plan or take further enforcement action 10/10/2016.

10/1/2018	Effectively treating arsenic with adsorptive media in lead/lag vessels to less than 4ppb measured in treated effluent (4800561-005) in all monthly samples collected since treatment was installed June 2018.	Yes

	Consolidation
--	---------------

11/05/2018 Water system population survey conducted concluded the water system does not meet the definition of a community water system and will be reclassified as a Transient Non Community Water system. As a result of the reclassification, they are back in compliance as their testing requirements are limited and Arsenic is not required.

7/30/2018 Enforcements were turned over to SWRCB DDW. A citation was sent to the water system on 7/13/2018 by SWRCB-DDW. A survey has been sent to homeowners to determine the occupancy of the homes connected to the system. The purpose of the survey is to determine if the system is a CWS or a TNC water system.

05/10/2018 Monthly meeting held on March 12, 2018 with the water system representative following up on action items and prop 218. MD #6 Evoqua proposal was not submitted for DDW review prior to meeting, so no other comments were provided. Madera County Public Work to go to the BOS for prop 2018 "notice of intent". Present via phone was also EPA, enforcement.

02/12/2018: Met with the home owner representative on 02/05/2018 with SWRCB, and MCPW to discuss compliance and the path forward. A compliance meeting is scheduled with EPA on 02/14/2018 to discussed compliance.

11/27/2017 A meeting was held with DFA, SWRCB-DDW, Madera County Districts, and homeowners on October 18th to discuss how the water systems will move forward. The homeowners are to create a Board and report to Districts, then they will need to inform Districts on how they will move forward.

8/7/2017 Funding is being re-evaluated based on income eligibility. The system will need to pursue alternate funding sources, or self-fund treatment to come into compliance.

5/04/2017 Additional documentation is required from water system residents. Self Certification of Household Income & Occupancy needed to determine eligibility of the residents for Emergency Bottle Water Funding. The construction application for Phase 2 was submitted to the state April 3, 2017

1/3/2017-A public hearing for consolidation took place on November 16, 2016. The public hearing included District Engineer Kassy Chauhan and Madera County Public Works.

10/31/2016 No status change from previous update

9/8/2016: The specific time frame for consolidation is still not set. There is a State project to consolidate MD#6, MD#7, and Bass Lake Water Company. The proposal is to consolidate and construct a regional treatment plant for all combined systems instead constructing three small treatment systems. The feasibility study has been approved. Project is moving forward, and an extended 18 months for planning is not a concern since a lot of these homes are seasonal homes during the summer.

8/02/2016 No status change from previous update.

4/28/2016 No status change from previous update.

3/10/2016: Bottled water is being served to anyone that resides in their homes year round. The homes are vacation homes and not all residents reside there more than 6 months out of the year. The system is close

11/13/2018 This system has been reclassified as a transient water system and was issued a permit on October 8, 2018 for the change in status. The system has been returned to compliance. 8/10/18: Same as previous. **5/21/2018: Issuance of a permit is pending.** 2/12/2018: POU's have been installed in all the residences and all POU's have been sampled. DDW is awaiting a response from the water system's consultant on a few questions before returning the water system back to compliance. 11/27/2017: The compliance order was amended with a deadline of December 31, 2017. 11/6/17 - No update at this time, the installation of POUs is still projected to be completed by the end of 2017. 8/7/17 - DDW met with the engineering consultant on July 11, 2017 to discuss progress. Project is proceeding for the installaion of POU devices. It is anticipated that installation of the POUs will be completed by the end of 2017. 4/27/17 - No status change from previous update 2/6/17 update: POU pilot study completed; Pure Blue H2O selected as POU for systemwide installation. DDW waiting for permit application and POU plans prior to approval to conduct installations. 11/7/16 update: DDW developing response for re-evaluation of PWS classification; 8/16/16 update: Citation with rescindable fines issued 5/16/16. CAP submitted by WS on 6/24/16. Fines rescinded on 6/27/16. WS is requesting re-evaluation of their PWS classification as a CWS (mostly seasonal usage second homes).OLD UPDATES: Water system evaluating alternatives. NOT using state funding. 9/17/15 update: System consultant contacted DDW on 8/28/15 inquiring about POU piloting for compliance. Provided POU Guidance; 11/4/15 Sent letter advising WS of past due deadlines related to CAP submittal. 5/4/16 update: draft Citation with rescindable fines prepared for failure to comply with Order.

10/8/2018	water system reclassification	Yes
